2010-2011 CALENDAR

The Web version is now the official Academic Calendar of Red Deer College. The Calendar and timetable set forth the intention of the College, at the time of publication, with respect to all matters contained therein. The College reserves the right, at any time, to make whatever changes are necessary, including the cancellation of particular courses, in order to serve the best interests of the College, or because of circumstances or occurrences beyond the College's control. The College expressly denies responsibility or liability to any person or persons who may suffer loss or who may be otherwise adversely affected by such.

Mr. Joel Ward
President

Welcome! We're thrilled that you're considering Red Deer College as a part of your future. We may be biased but we think RDC is a pretty cool place. It's College as you always imagined it would be – a great campus with great programs and great instructors – all in the heart of central Alberta.

You may not know this but you and I have something in common. You're thinking about coming here and I've only been here a few months. In that short time I have witnessed countless initiatives that have pointed to the focus and commitment of RDC to delivering a top quality, practical education that will set our students up for success in both career and life. 'Expansion' seems to be a theme around RDC these days. We're expanding our program choices, pool of scholarship funding, our physical facilities on campus and the breadth of student services we offer to make your life here on campus a fantastic experience.

Since we first opened our doors we've been committed to offering our students a wide variety of choice in programming. We just figure you deserve it! After all, your time at RDC is laying the foundation for

welcome➔ to RDC

your future and it's our belief that you should have access to as much diversity in programming as possible. From certificates to diplomas, apprenticeships to degrees*, RDC offers over 75 different programs for you to choose from. Whether your passion is in Motion Pictures, Management or Mechanics, we've got you covered. Because demands in the marketplace are constantly shifting, we are always on the lookout for ways that we can enhance our programming and ensure you have access to the courses you want. We also have a wide range of choice in Continuing Education programming that will allow you to connect to the College while pursuing a variety of interests. It adds up to a lot of choice!! Not sure where to start? No problem ... the folks in our Student Services department will be happy to help.

We know the last twelve months have been challenging economically, and making a commitment to go to college is a big undertaking. One of the most obvious ways we can help you succeed is through financial support. That's why we've put in place a *guaranteed scholarship program* that provides some financial support to every student coming to RDC directly from high school with a grade point average of 85% or higher! And we don't stop there. Check out our website at rdc.ab.ca for a comprehensive list of additional awards and scholarships we have available. Trust me, it will be worth your time. Last year also we gave away 596 scholarships and awards totalling \$472,741! We know you've worked really hard to get this far ... this is our way of saying 'great job' and 'we can't wait to see you here'!

When you get here, we look forward to showing you around our beautiful campus. In addition to boasting one of Canada's finest performance venues, last year we opened four new centres of excellence: Trades & Technology, Innovation in Manufacturing, Corporate Training and Visual Art. These new facilities added 18,000 square meters (200,000 sq. ft.) to our campus and they're filled with leading edge, top of the line equipment and materials to ensure our students get the finest quality education possible. And we're not done yet! We are now in the planning stages for two additional Centres: Health Education and Sport and Wellness that will provide an additional 35,000 square meters (377,000 sq. ft.) of learning space, fitness facilities and sporting event venues!

And speaking of sports ... student life here at RDC is some of the best around. Our RDC Kings and Queens sports teams have over 102 titles under their belts! If sports isn't your thing, we have over 20 student clubs, an awesome bar, great concerts and shows and all kinds of BBQs and festivals throughout the year. We know you're here for a great education but we also know that life balance is important. We've got you covered.

There's so many great things about College life here at RDC, I could go on for pages but the easiest way for you to experience it is a visit. Why not drop by the campus for a tour or visit us virtually on our newly redesigned website at rdc.ab.ca? Believe me, when you get here, you understand. I look forward to greeting you in the halls!

*RDC offers collaborative, transfer and applied degrees.

Assessment

To assist students in registering in courses for which they have adequate preparation, Red Deer College requires or suggests assessment in the following areas:

Placement Testing

Placement Testing is a requirement for all students wishing to enter the Career and Academic Preparation Program. General Studies students needing or wishing to take High School equivalency courses may be required to arrange for placement testing prior to registration.

Communications Course Placement

Students will be required to take a College placement test before registering in a 200-level written communications course. (Students with 60% or greater in English 30 or ELA 30-1 will be exempted from this test). Students who do not achieve a satisfactory mark in this test will be required to complete COMM 150 before they can register in the required 200-level course. Students should take the placement test early in the event preparatory work (COMM 150) is required.

Mathematics Diagnostic Test

First year university math is difficult for many students. Red Deer College offers the opportunity for students registering in the courses to complete a diagnostic test prior to the start of classes. Completion of the test will allow students to anticipate weak areas and receive assistance prior to and during classes.

Recognition of Prior Learning

Red Deer College recognizes prior learning of skills, knowledge or competencies that have been acquired through work, formal and informal education or training, self study or volunteer activity in the form of Recognition of Prior Learning (RPL). RPL can take various forms, and the associated outcomes can be used for a variety of purposes relevant to the individual's educational program at RDC.

Students transferring to another post-secondary institution to obtain their final academic credentials should be aware that the receiving institution is not obliged to recognize credit granted through RPL at RDC. Students are strongly advised to check with the receiving institution regarding the transfer of credit. Students who are funded by Student Finance Board should note that credit granted via RPL might affect their status as a full-time student and attendant financial support.

In order to obtain RPL, a student must provide relevant, supporting documentation (usually in the form of an official transcript) acceptable to the college of an equivalent course. Normally the Transfer Guide and the calendar descriptions of equivalent courses will be used to determine if the course may be formally recognized. Recognition may also be granted for experiences which are equivalent to an identified RDC course (i.e. practica or studio). In these cases, the student must provide documentation acceptable to the college. Students registering for programs and courses commencing in September must file completed Recognition of Prior Learning applications before the Add/Drop date in the Fall term, for credit to be applied to that term, and to be eligible to "Drop" the appropriate course. Students seeking Recognition of Prior Learning for courses beginning in January, must file Recognition of Prior Learning applications before the Add/Drop date in the Winter term, for credit to be applied to that term and to be eligible to "Drop". The same provisions are in effect for the Spring term.

To qualify for an RDC program credential, students must complete at least 25% of the credit requirements for the credential through enrollment in RDC. To receive recognition of prior learning by RDC, the individual requesting RPL must have already applied to the College and been admitted to a program.

RPL may take one of the following forms:

1. **Transfer Credit** is applicable when students wish to have formal accredited post-secondary courses transferred to their RDC credential. Official transcripts, course descriptions and course outlines from the sending institution must be provided before the learning is assessed. If granted, "**TR**" and the credit granted would appear on the official transcript, with no grade assigned. A non-refundable fee will be charged per application, with the exception of courses listed in the Alberta Transfer Guide; Block Transfers from other post-secondary institutions with existing transfer agreements and courses from within RDC.
2. **Advanced Placement** is a method of recognizing learning, obtained via formal or informal means, which enables students to waive a prerequisite and register directly into a higher level course. Students must provide appropriate documentation or demonstrations as determined by the assessor. If granted, "**AP**" will appear on the official transcript with no grade or course credit assigned. A non-refundable fee per application will be charged.
3. **Challenge** exams allow students to obtain a course grade in recognition of their learning, obtained via informal or formal means. Students applying to write a Challenge exam must provide appropriate documentation to support the learning experiences they feel qualify them to apply for the exam. You may only write a Challenge exam once, unless you have new/ additional learning experiences in the subject after writing the exam. A failing grade in an RDC course is not substantive grounds for a Challenge, unless the student can supply documentation of additional learning experiences. Students may not challenge a course for which Advanced Placement or Transfer Credit has already been granted or which has been waived as a prerequisite for a higher level course. If the Challenge application is approved, a non-refundable fee per course will be charged. A Challenge process must be completed before the last day of final exams for the term in which the student is registered in the Challenge section of the course. Once the Challenge is completed, the Challenge **Letter Grade** will appear on the official transcript with the appropriate credit weight, and a comment indicating the grade was obtained via the Challenge process. After registering in a Challenge, a student may apply to "Withdraw" from this process before the last day of final exams for the term in which they are registered in the Challenge section of the course. If a student withdraws from a Challenge, a "**WD**" with a Challenge comment will appear on the transcript. The Challenge fee is non-refundable. If the Challenge process is not completed within the timelines specified, a grade of "**F**" will appear on the transcript.

4. Prior Learning Credit granted through the Prior Learning Assessment process recognizes formal and informal learning. Applications for Prior Learning Credit must be accompanied by appropriate supporting documentation as determined by the assessor. The assessment process may take many forms including: portfolio, skill demonstrations, documentation, exams, letters of attestation of skill mastery, or other assessment strategies deemed appropriate by the subject matter experts. If granted, "PL" and the credit granted will appear on the official transcript, no grade assigned. A non-refundable fee per course will be charged.

5. Home Schooling
Red Deer College recognizes that students learn and acquire knowledge in a variety of settings. A student who has completed a Home Education Program, authorized or approved by the Alberta Ministry of Education, may qualify for Red Deer College admission by successfully completing a Career and Academic Preparation Course Challenge Assessment, or Alberta Learning Departmental Exams. Applicants must meet the competence equivalencies for all the courses designated as prerequisite requirements for admission to a specific program.

6. Restrictions
Each department is responsible for outlining any restrictions in student access to challenge and advanced standing. The restrictions require the approval of Academic Council.

7. Career and Technical Studies Modules
Career and Technical Studies modules may be considered for admission, or prior learning assessment purposes. Students need to formally apply for Recognition of Prior Learning, and provide documentation from the high school, of the specific modules completed to be eligible for prior learning assessments, or credit awards.

8. Advanced Placement (AP) Program
AP graduates may receive academic credit at RDC for their AP credential earned during high school. Only AP grades of 4 or 5 are accepted for transfer credit. An official AP transcript is required for assessment.

Transfer credit at RDC will be awarded based on current articulation agreements with Alberta Universities as cited in the Alberta Transfer Guide. For courses not governed by an articulation agreement, students may choose to pursue a Challenge process in order to obtain academic credit at RDC.

When registering please tell your Academic Advisor that you have AP courses. Caution must be exercised as Advanced Standing for AP courses may not be recognized by some receiving institutions. Policies of institutions which you plan to attend after Red Deer College should be taken into account.

9. International Baccalaureate (IB) Program
IB graduates may receive up to 30 credits (five full course equivalents) at RDC for their IB credential earned during high school. IB grades of 5 or lower will not be accepted for transfer credit at RDC.

Transfer credit at RDC will be awarded based on current articulation agreements with Alberta Universities as cited in the Alberta Transfer Guide. For courses not governed by an articulation agreement, students may choose to pursue a Challenge process in order to obtain academic credit at RDC.

When registering please tell your Academic Advisor that you have IB courses. Caution must be exercised as Advanced Standing for IB courses may not be recognized by some receiving institutions. Policies of institutions which you plan to attend after Red Deer College should be taken into account.

Assessment of IB or AP Courses
Depending on the form of assessment, a student may receive

- Transfer Credit (credit, but no grade is given for the course) or
- Advanced Placement (the requirement for completing the course as a prerequisite for higher level courses is waived, but students will be required to substitute another course to meet transfer credit requirements) or
- A challenge grade.

Following is an example of how transfer credit for IB is currently awarded based on existing articulation agreements at Red Deer College and the University of Alberta. (See chart on following page).

Example:

<u>International Baccalaureate Course</u>	<u>Red Deer College Course</u>	<u>U of A Course</u>	<u>Credits</u>
Biology HL	BIOL 218	BIOL 107	3 credits
Chemistry SL ⁵	CHEM 211	See Footnote 1	3 credits
English HL	ENGL 210	ENGL 101	6 credits
French SL	FREN 200	FREN 150	6 credits

Mathematics SL ⁵	MATH 203 or 212	MATH 100 or 114	3 credits
IB Diploma	See Footnote 4	101 level Open Elective	3 credits

- 1 Students may apply to write a credit by special assessment examination in CHEM 101 or CHEM 103.
- 2 IB History of Europe HL is not equivalent to any course offered at RDC. However, students with IB History credentials who attend RDC and then transfer to U of A will qualify for transfer credit for History 120 when they register at the U of A. Students with Full IB Diplomas will receive credit for a 3-credit option course when they transfer to the U of A.
- 3 Students may apply to write a credit by special assessment examination in Math 100 or Math 114.
- 4 RDC will offer a \$1,000.00 IB Diploma Scholarship to the first year RDC student with the highest IB Diploma score.
- 5 Students who plan to major in the physical sciences will be required by RDC to take the appropriate first year courses in mathematics and chemistry or to write challenge examinations rather than to accept transfer credit for Mathematics 212 and Chemistry 211.

The Program

The Applied Degree in Motion Picture Arts enables students who have completed two years of post-secondary theatre studies (or equivalent) to expand and apply their primary theatre training to the rapidly growing motion picture, television and multimedia industries. The two years of completed theatre studies is followed by a program year (3rd year) of intensive theory and hands-on instruction culminating in an advanced certificate in Performance or Production. Students may then choose to go on to the final (4th year) which is a credited mentored work experience the equivalent of two four-month terms or the opportunity to complete a substantial motion picture project. The program has two streams: the Production Stream and the Acting Stream.

Related Careers

The motion picture industry is a major contributor to the North American economy and is at the forefront of the digital revolution. The producers of feature films, television series and commercials seek gifted storytellers, actors, artists and technicians with strong backgrounds in the dramatic arts. Existing theatre programs provide a solid foundation for advanced study in narrative motion picture acting and production. The MPA program provides students with the specific skills and experience they need to gain an advantage in this highly competitive industry.

Graduates of the Production Stream will apply their broad-based understanding of the nature of production to pursue multiple job tracks as their careers progress. Typically, graduates will begin employment at entry levels in various areas of the industry, including cinematography, camera operation, digital editing, production design, sound recording, production management, and special effects. Some graduates may choose to act as self-employed contractors in their own creative business ventures.

Acting Stream graduates will be prepared to audition for performance roles in feature films, movies of the week, series television, commercials, and voice-overs.

With experience and proven ability, graduates from both streams may also advance into entrepreneurial roles as directors, writers, and producers, supervising content creation in a wide variety of current and emerging media.

The Program

The University of Calgary/Red Deer College Bachelor of Arts Collaborative Degree is a 4 year program (40 half year courses) that can be completed entirely at the Red Deer College campus. English, Psychology, or Sociology Majors are available. An optional Minor in English, History, Philosophy, Political Science, Psychology, or Sociology may also be completed.

Students take the first 2 years in the Red Deer College B.A. university transfer program. (Students with transfer credit from other institutions can often use it towards Year 1 & 2.) They then apply to complete the 3rd and 4th years as a University of Calgary student at the Red Deer College campus.

Year 1 & 2 courses are Red Deer College university transferable courses taught by RDC Faculty. Year 3 & 4 courses are taught by a combination of University of Calgary and Red Deer College Faculty.

The B.A. degree awarded is the same degree granted to students who complete their course work at the University of Calgary. Graduation requirements are the same as those outlined in the University of Calgary Calendar. (See "Graduation Requirements" later in this section for program details.)

Students may maintain part-time status and can start their program with evening classes, but eventually must take day time classes to complete their degree.

Related Careers

The purpose of a university education in the arts is not just to train you for a specific job, but to help you develop general skills that can be put to use in many different work situations. The Conference Board of Canada has identified the following as critical skills required for Canada's workforce:

- * Academic Skills (Communication, Thinking, Learning, Research)
- * Personal Management Skills (Positive Attitudes/Behaviours, Responsibility, Adaptability)
- * Teamwork Skills (Working with Others)

Bachelor of Arts students have exceptional opportunities to learn and hone these skills while also acquiring a background in their specific area(s) of interest.

English graduates may find employment in a variety of fields, such as researcher, speech writer, administrative assistant, public relations officer, publisher's agent, or advertising copy writer.

Sociology graduates may obtain employment in related areas such as social services, corrections, research, statistics, and government service. Psychology graduates might obtain employment in related areas such as social services, counselling, law enforcement, human resources, life skills training, or government service.

Bachelor of Arts graduates may also go on to professional studies in fields such as law, business, education or may continue to graduate studies for a Master's or Doctoral degree in their specific area of interest. Graduate work is required in order for a student to become a Chartered Psychologist or to become an instructor or researcher at the university level.

The University of Alberta Bachelor of Education program, in collaboration with Red Deer College, offers two years of study for degree completion and teacher certification with a focus in middle years education. The program is available to students who have completed either the first two years of the BEd Elementary program or an approved degree.

During the program, you will prepare to teach children and young adolescents in the middle years of schooling (grades 4 through 9). You will study curriculum and teaching methods appropriate for this age group, classroom management, middle school philosophy and organization, adolescent psychology and learning, philosophy, policy and social issues relevant for middle school teachers.

Each year, forty (40) students are selected on a competitive basis for admission into the program. As you progress through the program you will form lasting relationships and become part of a professional learning community. Because all students take the same sequence of courses over a two-year period, the program is designed specifically for full-time study.

The program includes two practicum experiences. The first experience will be for five weeks during the Fall Term of the 3rd year (includes a one week observation period). You will be paired with another student and placed in a middle school in or near Red Deer. The second experience will be for nine weeks in the Winter Term of the final year. Placement will be in Red Deer and Central Alberta area schools in classes ranging from Grades 4 through 9.

Application Process

Although all courses are taught on the campus of Red Deer College, application for this program **must** be made to the **University of Alberta**. Students may choose to use the University of Alberta's on-line application process or they can mail in completed application forms to the University of Alberta. Although the application deadline is March 1, **students are strongly advised to apply earlier**. Because there are more applicants to the program than there are places, enrollment management is in effect. Under enrollment management, an overall target of 40 new admissions is set for the program. A minimum AGPA for application is set each year; all admissions are competitive, and the actual admission AGPA may be higher.

Related Careers

This program prepares you for first-level nursing positions in any health care agency. You will be skilled in problem solving, critical thinking, and clinical decision making, with a focus on promoting and maintaining good health and caring for the sick. A bachelor's degree is often required for nursing positions, and is usually preferred by employers. A degree also improves your chances for promotion.

The Program

The Bachelor of Science in Nursing (BScN) program began at Red Deer College in September 1990 through a collaborative agreement between the College and the University of Alberta.

The program begins with admission to Red Deer College in Year 1 as a student in the University of Alberta Collaborative Baccalaureate Nursing Program with Red Deer College. For the first three years you are registered as a Red Deer College student. During Year 3 you apply for official admission to the University of Alberta for your fourth year. As long as you meet the criteria (see below), you continue at Red Deer College to complete your 4th year.

After completing year 4, you will convocate from the U of A with a BScN. As a graduate, you will be eligible to write the Canadian Registered Nurse Examination (C.R.N.E.) national examination. This is required for license to practice in Alberta as a registered nurse (RN).

Transfer Features

University of Alberta (at off-campus Red Deer College site)

You will apply to the University of Alberta for admission to Year 4 of the University of Alberta Collaborative Baccalaureate Nursing Program with Red Deer College as directed by the Nursing Department Staff. The University of Alberta will accept the completed first three years of the program as a block transfer. To be eligible to continue to fourth year, you must have completed all required 3rd year courses and have a minimum G.P.A. of 2.00. The U of A Faculty of Nursing also requires a satisfactory medical examination, up-to-date immunization including Hepatitis B, and a valid C.P.R. certificate at the Health Care Provider Level.

Application Deadline

For the 2010-2011 Academic Year, the GPA calculation for Conditional Admission will be calculated according to one of the following:

1. 25 high school credits from the following subjects: Biology 30, Chemistry 30 or Science 30, Math 30 (Pure), ELA 30-1, and one 30-level subject from Group A, B, or C. If any of these courses are in progress at time of application, the 20-level in the subject will be used.
2. 18 post-secondary credits including all credits from the most-recently completed term plus the best grades from the next most recent term.
3. Applicants with fewer than 18 post-secondary credits will have their GPA calculated using all post-secondary credits plus the credits from the most recent semester from high school using the best grade(s) from the following five subjects: Biology 30, Chemistry 30 or Science 30, Math 30 (Pure), ELA 30-1 to reach 18 credits.

Transcript Deadline: before March 1st.

Admission Requirements

1. Minimum average of 65% with no mark below 50% in:

- a. Biology 30
- b. Chemistry 30 or Science 30
- c. ELA 30-1
- d. Mathematics 30 (Pure)
- e. Subject from Group A, B, or C (See "Alberta Grade 12 Course Groups," page 8.)

- c. English 30 or ELA 30-1

Additional Requirements

In order to proceed to the next clinical nursing course you must satisfy the following requirements by September 1 of your first year in the Nursing Program:

1. A specific schedule of immunization (forms provided by college).
2. Evidence of a valid C.P.R. certificate at the Health Care Provider Level. You must be recertified in each year of the program.
3. Evidence of a valid Standard First Aid certificate.

Note: While not an admission requirement for the program, applicants are advised that they will be required to provide a Criminal Record Check to agencies where they will be placed for practicum experiences. The existence of a criminal record may prevent clinical placement, program completion, professional licensure and therefore, may affect employment prospects. It is each agency's or institution's decision to accept or reject a student for placement or observation experience based on the results of the criminal record check. Prospective students who have a criminal record should discuss the matter with the department Chair prior to applying for admission.

Program Content

A revised curriculum for the four year Collaborative program began in 1997. The method of instruction is Context Based Learning (CBL). Throughout the program, students work in small groups with a tutor to explore a series of learning packages based on situations of relevance to nursing. Content from nursing, physical sciences, medical science, social

sciences and humanities is introduced and integrated beginning with the first learning package in NURS 280. Nursing practice normally occurs in concentrated blocks of time in each term in a variety of settings including community and institutions in each year of the program. In addition, a 3 credit English course and two electives are part of the program.

Course Sequence

A. For students commencing Nursing in or after September, 1997:

*** Note 1:** Content to be integrated within scenarios in NURS CBL courses (e.g., NURS 280, NURS 284, NURS 380, NURS 384, NURS 390, NURS 394, etc.). In some cases, students will register in successive parts of the courses across terms. A final grade is given when the course is complete.

Note 2: Electives - electives are those courses which transfer to the University of Alberta; a grade of "C-" is required for credit transfer of electives.

Note 3: Any U of A transferable Political Science or Philosophy 3 credit course will be accepted instead of the Political Science or Philosophy courses listed in Year 3.

Note 4: Nursing 396: Students may receive credit for a 3 credit U of A transferable statistics course. In this case, they would register in Nursing 301 (Nursing Research) instead of Nursing 396.

For more details about course selection, program requirements, and admission and transfer information, please refer to the Academic Advising Planning Guides available through the Academic Advising webpage (address below).

If you are planning to transfer to programs at institutions others than those with whom RDC has identified transfer agreements, you should contact the transfer institution as early as possible regarding course planning.

NOTE: This information is current at the time of publishing and may change as the universities revise their programs.

Admission Requirements

Admission to a Red Deer College university transfer program does not ensure future admission to a university. Please refer to university calendars or RDC academic advisors for more information.

If you are studying at Red Deer College under student visa, or if you have not always lived within the province of Alberta, you must consult the calendar of the institution to which you intend to transfer regarding their policy on admitting international and out-of-province students. This may vary between institutions.

Course Transfer

Transfer credit agreements between RDC and the Alberta universities are maintained by the Alberta Council on Admission and Transfer (ACAT). For specific course and program transfer information, please visit the ACAT website at www.acat.gov.ab.ca. Questions regarding transfer can be directed to The Alberta Council on Admissions and Transfer at 11th floor Commerce Place, 10155 - 102 St., Edmonton AB T5J 4L5.

These resources include the RDC Calendar, the Academic Planning Guide for your program and transfer university the Alberta Transfer Guide and the calendar and contact information for your intended university.

They will assist you in interpreting information from these resources or refer you to your intended university if appropriate.

Please be aware that you are responsible for ensuring that your registration is complete and appropriate and that your course choices comply with the program to which you have been admitted at RDC and/or to the university to which you intend to transfer.

Any changes you make to your courses, your major or your transfer destination may adversely affect your transferable credit, your admission to university or your eligibility to graduate from Red Deer College.

Bachelor of Arts graduates may also go on to professional studies in fields such as law, business, education, etc., or may continue to graduate studies (for a Master's or Doctoral program) in their specific area of interest.

Liberal Arts graduates generally have superior skills in conceptual analysis, evaluation and critical reasoning, leadership motivation, and interpersonal and communication skills.

The Program

The objective in all programs is to provide you with the basis of a liberal arts education which will allow you to transfer to universities offering a Bachelor of Arts degree program.

In most cases, you will major in one of the subjects listed below. By declaring a major, you are simply stating your intent to pursue a comprehensive study of that subject area. Some university programs require you to declare a minor, which represents a second subject you will study in some depth as well.

Majors

You are required to complete a major in the Bachelor of Arts degree. A major includes a certain number of courses taken in one field of study. Generally, about half of the courses taken in a four year degree will be chosen from the major field. This number will vary according to your choice of major and the university you attend.

Majors available at RDC are Anthropology, Communications, Economics, English, French, History, Philosophy, Political Science, Psychology, Sociology and Spanish.

See detailed information on the following pages for specific requirements for individual majors.

Honours

Honours programs are designed to prepare students particularly well for advanced study at the Master's or Doctoral level in the major field of interest. High standards of performance are required in Honours programs. Most universities offer Honours programs in the same fields as the Majors listed above. You should consult with an Academic Advisor for details.

Transfer Features

You may transfer up to 60 credits (20 three credit courses) taken at Red Deer College to the university of your choice. This normally represents the first two years of a four year program. The courses you select must meet the program requirements of that specific university.

Note: Admission to university is competitive and based on academic achievement. Consult with an Academic Advisor for details.

Course Load: Full-time or Part-time Study

The Bachelor of Arts program is open to full-time students and part-time students. A full-time student will take at least 3 courses per term (minimum 9 credits), with 5 (15 credits) being the normal full load. Extra courses represent special burdens and may result in poor academic performance. A student will be permitted to take more than 5 courses in a term only under exceptional circumstances and with the approval of an Academic Advisor. Part-time students take 1 or 2 courses per term.

Admission Requirements

1. Minimum average of 60% with no mark below 50% in:

- a. ELA 30-1
- b. 4 courses from Groups A, B, or C (Social Studies 30 and a 30-level Language other than English highly recommended), with no more than one course from Group B (See "Alberta Grade 12 Course Groups," page 8)

Note: Some Universities require Pure Math 30 for admission or as a prerequisite for required courses. Transfer students are responsible for learning the specific admission, progression, and prerequisite requirements of their programs.

OR

2. Mature Student

You must be 19 years of age or older, out of high school at least one full year before the program starts, and have a minimum average of 60% with no mark below 50% in:

- a. ELA 30-1
- b. Subject from Group A, B, or C (See "Alberta Grade 12 Course Groups," page 8)

OR

3. Successful completion of one year of a diploma program and Chairperson approval.

Students should be aware of the following:

- whether or not Math 30-Pure is required for admission or as a prerequisite varies depending on transfer destination
- student without Math 30-Pure may limit their eligibility to some major or institutions
- this recommendation applies only to Bachelor of Arts majors available at RDC and Math 30-Pure specifically. For other 30-level admission or prerequisite requirements, or for admission to other degrees, please refer to the appropriate university calendar.

Deficiencies in High School Course Requirements

If you are eligible for admission but need high school equivalency courses, see an Academic Advisor.

Program Content

The following information provides basic program content but does not include specific details regarding requirements. This information is current at the time of publication but may change as the universities change their requirements.

If you wish to check exact degree requirements and transfer equivalents, see the university calendars and the [Alberta Transfer Guide \(http://www.acat.gov.ab.ca\)](http://www.acat.gov.ab.ca). The Registrar's Office has reference copies.

Course Selection

Universities normally place restrictions on the type of courses accepted for the B.A. degree. These restrictions may take the form of required core subjects, or discipline areas and limits on the number of first-year courses that you can take. In selecting courses, you must make sure they meet both the admission and the program requirements of the transfer university.

University of Alberta Bachelor of Arts Partial Program Requirements:

See Academic Advising Planning Guides for more specific program details: www.rdc.ab.ca/academic_advising. For U of A credit weights, check the Alberta Transfer Guide (<http://www.acat.gov.ab.ca>). Two-Year University Transfer Program

Red Deer College offers the first two years of these degree programs:

1. Bachelor of Arts
2. Bachelor of Arts (Honours)

Related Careers

The study of a second language complements any career as it broadens a student's intercultural understanding, improves communication skills, facilitates international business and expands international work opportunities.

Fluency in French and/or Spanish can give an applicant for any position a clear advantage over unilingual candidates. In Canada, proficiency in French is desirable in civil service positions and the study of French and/or Spanish can also lead to a career in foreign service. Specializing in French and/or Spanish can lead to a career in teaching or translation/interpretation, as well as open doors to graduate study, international business, international law and many other fields. Learning a second language helps one better understand one's native language, and helps to develop a student's analytical and critical reading skills. In the global economy where free trade within the Americas, Europe and Asia is constantly expanding, a foreign language is increasingly becoming an essential tool.

Graduates may also go on to professional studies (for example in fields such as law, business, education, etc.) or may continue to graduate studies (for a Master's or Doctoral program) in French or Spanish.

B.A. graduates generally have superior skills in conceptual analysis, evaluation and critical reasoning, leadership motivation, and interpersonal and communication skills.

The Program

For a general discussion of the B.A. Program, see page 24.

French and Spanish cover the study of grammar and literature of the French and Spanish languages. Some courses include sample readings from French-speaking and Spanish-speaking countries.

Red Deer College offers introductory to advanced French language courses. Beginner's level to second year university courses are available. Red Deer College also offers beginner's and university level Spanish courses.

One- and Two-Year University Transfer Program

For the most current university program and transfer information, please see the Academic Advising homepage at www.rdc.ab.ca/academic_advising. Click on Planning Guides.

The Program

Graduates of the four-year Bachelor of Education program (University of Alberta) and the five-year combined degree program (University of Alberta and Lethbridge) are eligible to apply for Teacher Certification in the Province of Alberta and all other provinces. Red Deer College offers up to two years of these programs.

Your educational experience is further enhanced through active participation in the Education Undergraduate Society (EUS). Membership in this society entitles you to attend conferences, conventions and other activities of the Alberta Teachers' Association.

Transfer Features

You may transfer up to two years taken at Red Deer College to the university of your choice. Some routes and majors may require transfer after one year if Red Deer College does not offer all needed courses.

Before planning your program and registering, decide on the university you want to attend, the grade level you want to teach, and the subject area in which you want to specialize. (See details under "University Programs.")

The University of Calgary offers a two-year after-degree Bachelor of Education (Master of Teaching Program. Students need to complete a recognized undergraduate degree prior to entering this program.

The Calgary Faculty of Education continues to offer a number of five-year combined degree programs in which you can attain both a Bachelor of Education and another Bachelor degree at the same time. Interested students should contact the University of Calgary or an Academic Advisor.

Transfer institutions accept a limited number of students to the Bachelor of Education program. Successful transfer is based on proper course selection, credit hours completed, grade point average (G.P.A.), and other requirements. These requirements vary depending on which university, route, and major/minor you choose. Some routes and majors are more competitive than others and may require a higher grade point average for transfer.

Detailed information regarding course selection and transfer requirements for University of Alberta and University of Lethbridge are provided by Red Deer College before you register. If you plan to transfer elsewhere, you may need to contact your destination university or college regarding course planning. Academic Advisors at Red Deer College can assist you in this process.

Admission Requirements

1. Minimum average of 60% with no mark below 50% in:

- a. ELA 30-1
- b. Three subjects from Group A or C
- c. Subject from Group A, B, C, or D

Note: If you are admitted as a Mature Student, you still must meet prerequisite requirements for university transfer courses. (Prerequisites for Red Deer College university transfer courses are listed under the course descriptions at the back of this Calendar.) You may have to take more 30-level high school subjects than the minimum stated above, in order to complete courses needed for your degree.

Completion of Math 30 (Pure) is highly recommended, especially for the Elementary Education Program.

Two-Year University Transfer Program

The Bachelor of Fine Art program provides a comprehensive program of studies for those considering a career or general education in visual art.

Over the past thirty years, hundreds of Red Deer College BFA graduates have successfully transferred to all of the major universities and art colleges across Canada and completed their BFA degree. Many have gone on further and now have their MFA degree and are practicing artists, art teachers and art professors.

Related Careers

This program emphasizes the importance of a general foundation in art. Competition for employment in specialized art fields is very keen, making the strength of your basic education very important.

The following employment-related fields require a general art foundation, followed by more specialized training, ending in a four-year undergraduate degree or Master's degree.

Fine Art - sculpture, painting, ceramics, printmaking, photography, and drawing
Crafts Design - ceramics, textiles, glass, and jewellery

Commercial Design - lay-out, illustration, display, model-making, and photography
Environmental Design - architectural, urban, environmental, and industrial design

Photography - creative, commercial, industrial, and freelance

Art Education - secondary and post-secondary

Other - art galleries, framing shops, etc.

The Program

The instructors in the Visual Art Department are themselves practising artists. Studios are fully equipped for ceramics, sculpture, painting, drawing, printmaking, and design.

The program offers you a concentrated visual arts foundation in a two-year time span. The first year emphasizes experience in drawing, painting, design, ceramics, sculpture, art history, and English. A broad range of visual experiences will help you form a visual arts vocabulary and master skills in composition and technical areas.

Emphasis in the second year is on creative growth and visual maturity in studio work.

Transfer Features

You may transfer up to 20 course equivalents taken at Red Deer College to the University of Alberta, University of Calgary, University of Lethbridge or the Alberta College of Art. The B.F.A. program is also transferable to most other Canadian universities and art colleges.

Admission Requirements

The Program

The program is designed so that students can complete a 2-year diploma (see Kinesiology and Sport Studies Diplomas, page 97), and then enter the work force or transfer to a university and complete a Bachelor's degree. The program is designed for students wishing to transfer to the University of Alberta, the University of Calgary or the University of Lethbridge. Transfer to other universities is possible with proper program consultation and careful course selection. For university transfer, the courses you select must meet the program requirements of the specific university chosen.

Admission to a university program may be limited by quota. Entry is based on your academic record. You should expect heavy course and program demands and the need for a competitive GPA if you wish to transfer to a university program.

The objective of the program is to educate and prepare qualified leaders in the field of Kinesiology and Sport Studies who:

- are prepared for employment in related fields and agencies in the private and public sectors
- are prepared for teaching and coaching careers in school systems
- may choose to continue their education at the graduate level

You must complete an after degree program in Education if you wish to become a certified teacher in Alberta. This normally qualifies you to teach in physical education and health areas, plus one or more other subject areas. Selecting proper courses during your program is important for this reason.

Admission Requirements

1. Minimum average of 60% with no mark below 50% in:

- a. ELA 30-1
- b. Two subjects from Group A* and/or C
(for this program only, Math 30 (Applied) may also be used as one of these subjects)
- c. Subject from Group C (Biology 30 recommended)

Bachelor of Science and Pre- Professional Programs

See page 23 for general information.

The Program

The objective of these programs is to provide access to the first and, in some cases, the second year of study toward "general" or "subject specific" programs which can be transferred to the provincial universities.

The "subject specific" programs provide education in the conventional scientific disciplines. You can take a number of options, but the number and sequence of the science courses is more rigid than in the "general" program.

The "general" program gives you the flexibility to build a science program around your personal strengths and interests by blending the "subject specific" areas. This is done by declaring a major and minor subject.

The "pre-professional" programs are designed to meet the admission requirements of professional schools (such as medicine, dentistry, veterinary medicine, pharmacy, optometry, and chiropractic medicine). These programs are very competitive, and you should plan your program so that you have the option of completing a science degree if your admission into the professional program is denied or delayed.

In many cases, transfer from one major to another can be arranged with a minimal loss in study time.

Transfer Features

You may transfer up to 20 course equivalents taken at Red Deer College to the university of your choice. The courses you select must meet the program requirements of that specific university. Before planning your program and registering, you should decide to which university you will transfer, and in what subject area (major) you want to specialize.

Transfer depends on proper course selection, credit hours completed, grade point average (G.P.A.), and other requirements. The minimum stated G.P.A. does not guarantee admission to a professional program.

Laboratory Safety Requirements

Chemistry: You must have a lab coat and safety glasses to take part in Chemistry labs. You can buy these items at the College Bookstore.

Course Selection

Note: Not all the courses listed under the programs may be offered every academic year.

When selecting courses, the Arts and Science options are defined as:

<u>Arts Option</u>	<u>Science Option</u>
Anthropology	Astronomy*
Art*	Biochemistry
Drama*	Biology
Economics	Chemistry
English	Computing
French	Science*
	Genetics
*Geography (except 230/231)	*Geography (230/231)

One-Year or Two-Year University Transfer Program

For the most current university program and transfer information, please see the Academic Advising homepage at www.rdc.ab.ca/academic_advising. Click on Planning Guides.

The Program

The BSc General program gives you a broad education in more than one branch of study. Students must select a major and a minor subject or area of concentration. The major subject or area of concentration must be in Science.

If you are enrolled in the General program and intend to transfer to another, carefully follow the requirements for the latter program when you select (consult with an Academic Advisor) your first year courses. This applies to all students intending to transfer to the Universities of Calgary or Lethbridge which do not offer a BSc General Degree.

Transfer Features

This program also allows for subsequent transfer to University of Alberta Specialization and Honours programs if admission requirements are met. It also allows for transfer to University of Calgary Honours and Majors programs, all of which have no first year admission. It also allows for transfer to University of Lethbridge Majors programs.

Note: There are some major/minor combinations which have required courses (usually in the second year) that are not offered at Red Deer College. Students taking these combinations can either take other (transferrable) courses during their second year; or, can transfer after their first year at Red Deer College.

Admission Requirements

1. Minimum average of 60% with no mark below 50% in:

- a. ELA 30-1
- b. Mathematics 30 (Pure)
- c. Two of Biology 30, Chemistry 30, Mathematics 31, Physics 30
- d. Subject from Group A, B, or C (See "Alberta Grade 12 Course Groups," page 8)

OR

2. Mature Student

Program Content

The following outlines provide a basic understanding of program content but do not contain specific details regarding specific course requirements. This information is current at the time of publication but may change as the universities change their requirements.

University of Alberta

A major subject area is chosen from: Biological Sciences, Chemistry, Earth & Atmospheric Sciences, Mathematical Sciences, Mathematics, Physical Sciences, Physics, Science Psychology, Statistics & Applied Probability.

The student has the option of choosing a minor subject or area of concentration in Science, Arts or Business. (For more information on a Business minor, please contact the University of Alberta Science Department at (403) 492-4758 or 1-800-358-8314.

Major subject areas:

Minor subjects in Arts:

If the minor subject chosen is from Arts, any requirements as specified by the Arts department must be met. Please see the U of A Calendar for minor subject areas.

The Major Subject Area and Minor Subject area may not share courses from the same department. The following combinations are not allowed:

Earth & Atmospheric Sciences/
Arts Geography
Science Psychology/Arts
Psychology

Courses in a major or minor Subject area may not overlap. For example, if the major Area of Concentration is the Mathematical Sciences, and the minor Subject of Concentration is Statistics, then the major may be made up of Mathematics courses and Computing Science courses, but no Statistics courses. The minor would consist exclusively of Statistics courses.

Admission to the Pre-Professional Program for Chiropractic at Red Deer College does not guarantee admission to a chiropractic college. You should fulfill all the Pre-Professional Program for Chiropractic requirements, but also design your program so that you can complete a Bachelor of Science degree. Competitive admission to Professional programs requires you to have a high grade point average in your pre-professional courses. You should check with universities to be aware of specific admission requirements. You can consider Athabasca University as an option.

Trade Careers - A Smart Choice

www.tradesecrets.gov.ab.ca

Trades careers have a lot going for the skilled men and women who work in them...lots more than most of them imagined when they first started out!

- many trades offer the right kind of challenge as they are highly technical, involve lots of math and sciences, and are changing quickly
- a trade career can lead to supervision, management, the professions and business entrepreneurship
- most tradespeople can write a 'Red Seal' exam and earn an Interprovincial Standards Red Seal on their journeyman certificate. This lets them work in most Canadian provinces and territories
- pay rates vary; generally they are good
- while some trades occasionally are affected by temporary economic slowdowns, the aging workforce means an overall increase in future demand for skilled tradespeople. Employers need people with the right skills!

Learning a Trade

Apprenticeship: The short story

An apprentice is someone learning a trade while he or she is employed.

Apprenticeship is a combination of on-the-job training, work experience and technical training in a trade.

Apprentices spend about 80% of the time learning on-the-job from a qualified tradesperson. The rest of the time they take technical training, usually at a college or technical institution. Depending on the trade and the region in Alberta, there may be other methods of delivery of technical training.

An apprenticeship program lasts 1 to 4 years, depending on the trade. From day one, apprentices earn money for their time on the job. First-year apprentices earn about half of a journeyman's wage. The pay increases as the training progresses.

When apprentices successfully complete their apprenticeship program, they graduate to certified journeymen. The Alberta Journeyman Certificate proves to themselves and to any future employer that they meet Alberta's high industry standards.

There are 50 apprenticeable trades in Alberta.

Who can enter an apprenticeship program?

Age doesn't matter. You can enter apprenticeship during high school or any time after. Most first-time apprentices are in their late teens or early 20s.

To be an apprentice you need to:

- complete grade 12 (some trades don't require Grade 12, but many employers prefer to hire high school graduates),
- or
- write and pass an entrance exam,
- or
- take part in the Registered Apprenticeship Program (RAP) while you're still in high school, earning an income and credit toward your apprenticeship and your high school diploma.

In many cases, students who have taken certain Career and Technology Studies (CTS) program modules may receive credits toward an apprenticeship. The same applies for those who have taken certain kinds of post-secondary training. These credits can shorten the time it takes to complete an apprenticeship and become a certified journeyman.

A person who has previous training or work experience in a trade and wants to find out if they qualify for entry or advanced standing in an apprenticeship program may apply for a Prior Learning Assessment.

Alberta Learning is taking steps to increase the participation of Aboriginal people in the trades through its Enhancing Aboriginal Participation in the Trades Communication Initiative. Aboriginal people interested in becoming an apprentice to learn a trade may find useful information in the Step Into the Trades brochure and on the ThinkTrades website.

'OK, I'm interested. What's next?'

Step One: Choose a trade

Check the list of apprenticeable trades and narrow your choices (see Trades & Occupations). Get as much information as you can about your choices from school counsellors, the Internet, your local library, or your nearest Apprenticeship and Industry Training Office.

Next, talk to people working in the trades that interest you. Speak to their employers – maybe they'll let you 'job-shadow' to see what the day-to-day work is like. Ask lots of questions!

Step Two: Find an employer

Thousands of employers hire and train apprentices. But there's no getting around the fact that finding an employer to train you is the hardest part of the process. You must be employed to be an apprentice.

Many employers already know the apprenticeship training process. But take a copy of our brochure 'Training apprentices' to your interview in case you find one who doesn't. The brochure explains apprenticeship for employers. It's available from Apprenticeship and Industry Training Offices.

Step Three: Apply

Once you have an employer, download and print an Apprenticeship Application and Contract or contact any of our offices for an application. You and your employer complete the application/contract, and you return it to one of our offices. Then, we'll help you with Step Four.

Step Four: The Apprenticeship Contract

The application/contract is an agreement between you and your employer. It outlines who's responsible for what during your apprenticeship.

You are responsible for completing both your technical and on-the-job training.

Your employer is responsible for paying you a certain percentage of the journeyman wage rate, increasing your pay as you progress through training, training you on the job, and for allowing you to attend technical training.

Technical training can involve 4 to 12 weeks of classroom sessions annually. In some trades alternate delivery methods are available including distance learning, weekly apprenticeship training (attend classes one day a week), and Competency-Based Apprenticeship Training (CBAT).

Year-by-year: Do it!

To move from one year of apprenticeship to the next, and to receive your wage increases, each year you need to:

- have the required number of months of on-the-job training
- have the required number of hours of on-the-job training
- successfully complete technical training
- pass the industry exams
- ensure your record book is updated by your employer, and
- send your record book to the nearest Apprenticeship and Industry Training Office for a Certificate of Progress stamp

How much does apprenticeship training cost?

There is a tuition fee for technical training. Like all other adult learners, apprentices pay a portion of the cost of their training. The apprentice must pay the tuition fee to the educational institution before commencement of the class.

Tuition fees are presently under review and subject to change.

Tuition Fees for 2010/11 are:

All Apprenticeship E-Campus courses will be assessed an additional \$50.00 E-Campus Technology Fee. The above fees do not include textbooks or modules.

Additional costs include student association, locker, parking and other facility fees, textbooks and other classroom materials. Apprentices who must travel to receive technical training are responsible for travel, accommodation and meals.

Financial assistance is available to apprentices in a variety of forms:

- Several scholarships are available for apprentices. Sources include Red Deer College, the Federal Government, and the Provincial Government
- Most apprentices are eligible for employment insurance (EI) while attending technical training.
- Based on need, financial assistance may be available to apprentices while attending training through Alberta Works - Apprenticeship Grant.

More information and applications are available at the Student Funding & Awards Office - Room 1101, by telephoning 403-342-3254 or by e-mailing financialaid@rdc.ab.ca.

How do apprentices register for technical training?

In May of each year, employers and apprentices receive a mailing from Apprenticeship and Industry Training that includes information about where and when training is available, and instructions on how to apply at each institute or college.

The apprentice, after consulting with their employer, applies directly to the institute or college before the training starts.

- Class registration is on a first-come, first-served basis. Early application is recommended because training space may be limited.
- The apprentice may need to pay either the full tuition fee or a deposit at the time of application.

The institute or college will verify the apprentices eligibility and provide written confirmation of registration to both the apprentice and the employer.

The Career and Academic Preparation (CAP) program gives adult students an opportunity to

1. upgrade academic skills
2. acquire a High School Equivalency Diploma that is accepted by other colleges and universities in Alberta and by most employers
3. upgrade to meet entrance requirements for vocational, career, and university programs
4. develop teamwork skills, work with others, practice problem-solving, and develop effective study skills
5. prepare for entry to the workplace or a chosen career
6. create a portfolio of identifiable skills.

Program Delivery

You can learn in a traditional, classroom setting with an instructor, or take courses in the CAP Learning Centre by independent, self-study with instructor guidance and/or tutor support.

Courses by Independent Study

Some courses in our program may be taken as 1-credit modules (Computing).

Most of our academic subjects are available as flexible, accessible and supported learning in the CAP Learning Centre.

Admission Procedures

1. Placement Assessments. The Career and Academic Preparation program will arrange testing to help place you in the appropriate level of courses. Assessments are not required for current CAP students or students who have been out of school or college for less than one year.

2. Placement interview. You will meet with a Career and Academic Preparation advisor to review the assessment results and your career goals. The advisor will help you create a Learning Plan and register you into appropriate courses based on the assessment, your prior learning, and your career goals.

Note: Transcripts will be required if you have attended high school or another post-secondary institution.

Program Content

The Career and Academic Preparation program offers high school equivalency in all academic disciplines. These courses are accepted in place of Alberta Education courses for admission and prerequisite purposes at Red Deer College. The following describes the course numbering system:

40/50 Levels -Pre-high school refresher courses (English, Mathematics)
75 Levels -Grade 10/11 in high school
85 Levels -Grade 11 in high school
90/95/96 Levels -Grade 12 in high school

Expenses

You will have to buy your own textbooks. Textbooks range from \$80.00 to \$150.00 per course. In addition, a graphing calculator is required for your Math 85 and Math 96 courses. It will cost approximately \$160.00.

Graduation Requirements

Since most post-secondary programs have special requirements for the admission of mature students, it is strongly recommended that students contact an Academic Advisor or Department Chair in specific program areas to determine how best to meet these entry requirements.

Few programs require mature students to possess a complete high school diploma. For those students who wish to receive a high school equivalency diploma, the Career and Academic Preparation program will grant a High School Equivalency Diploma if the student has not received one previously. Students must apply to the Registrar to receive this diploma.

Red Deer College High School Equivalency Diploma Requirements:

You must have 5 courses in order to qualify. (2 of the 5 courses must be completed at Red Deer College)

These must include:

1. ENGL 090 or ENGL 095

One-Year Certificate Two-Year Diploma

The importance of the early years in a child's development is well established. There is a critical need for a variety of programs for children and families and for trained staff to ensure children's developmental needs are being met. The Early Learning & Child Care Program trains professionals to work with children from birth to eight years, with some related preparation for working with children from eight to twelve years of age. Throughout the program, there is an emphasis on developing caring relationships with children and families.

A one-year certificate and/or a two-year diploma can help prepare students for a rewarding career. This program is designed to provide students with the opportunity to gain knowledge and develop competencies in such areas as child development, interpersonal relations, curriculum content, family studies, exceptional children, and program management.

Focus is placed on the integration of theory and practice. This is accomplished by an extended practicum in a variety of early learning and care program environments.

Related Careers

Graduates of the Certificate program in Early Learning & Child Care may find employment in a variety of positions:

- early childhood caregivers in child care programs
- instructional assistants in kindergarten programs and primary grades
- teachers in a nursery school
- caregivers in school-age care programs
- family day home providers

As well as the above, other opportunities for employment for Diploma graduates include:

- day care directors and administrators
- family support workers/visitors
- child care program coordinators (in a women's shelter, for instance)
- family support workers
- instructional assistants to children with special needs in preschool or school programs

The Program

Red Deer College offers a one-year certificate and a two-year diploma program in Early Learning & Child Care. Each course you take focuses on a different topic important to those who work with young children - everything from child development, to guiding behavior, to planning snacks and bulletin boards, to planning and participating in play experiences, to interacting with children who have special needs.

The ELCC department operates in partnership with college and community programs serving children from birth to twelve years of age. Students work in practicum placements in these programs as a method of integrating theory and practice. There are two practicum courses in each of the ELCC programs. By the end of the Diploma Program, students assume many of the responsibilities related to preschool care and education in their practicums.

Outreach (Distance) Delivery

The Outreach Program in Early Learning & Child Care offers the opportunity to study at the college level, to continue working, and to remain in your community for most of the experience. There are several methods of Outreach Delivery: The certificate program is available by Blended Delivery based at RDC and the diploma is available online.

Certificate Distance (Blended) Delivery courses are based in Red Deer and combine the strengths of print-based independent study materials, with computer-facilitated support, as well as on-site classroom delivery two Saturdays throughout the Semester per course.

All the Diploma courses are provided "on-line". These are offered on a rotational basis.

A complete cycle of ELCC courses can be completed through part-time study over a four-year period or less. This multi-delivery approach is highly effective in meeting the diverse needs of adult students.

Students with an ELCC Diploma may transfer to related fields in some university programs. Students wishing to transfer to these universities should seek information on additional admission requirements from the institution.

Students can enter the program in September, January or May and can register as part-time or full-time students.

The Program

The Applied Degree in Motion Picture Arts enables students who have completed two years of post-secondary theatre studies (or equivalent) to expand and apply their primary theatre training to the rapidly growing motion picture, television and multimedia industries. The two years of completed theatre studies is followed by a program year (3rd year) of intensive theory and hands-on instruction culminating in an advanced certificate in Performance or Production. Students may then choose to go on to the final (4th year) which is a credited mentored work experience the equivalent of two four-month terms or the opportunity to complete a substantial motion picture project. The program has two streams: the Production Stream and the Acting Stream.

Related Careers

The motion picture industry is a major contributor to the North American economy and is at the forefront of the digital revolution. The producers of feature films, television series and commercials seek gifted storytellers, actors, artists and technicians with strong backgrounds in the dramatic arts. Existing theatre programs provide a solid foundation for advanced study in narrative motion picture acting and production. The MPA program provides students with the specific skills and experience they need to gain an advantage in this highly competitive industry.

Graduates of the Production Stream will apply their broad-based understanding of the nature of production to pursue multiple job tracks as their careers progress. Typically, graduates will begin employment at entry levels in various areas of the industry, including cinematography, camera operation, digital editing, production design, sound recording, production management, and special effects. Some graduates may choose to act as self-employed contractors in their own creative business ventures.

Acting Stream graduates will be prepared to audition for performance roles in feature films, movies of the week, series television, commercials, and voice-overs.

With experience and proven ability, graduates from both streams may also advance into entrepreneurial roles as directors, writers, and producers, supervising content creation in a wide variety of current and emerging media.

Admission Requirements

1. You must have successfully completed 2 years of a post-secondary Theatre Studies Diploma Program (or equivalent) with a minimum 2.00 GPA. Other related post-secondary credits and/or equivalent experience will be considered.

2. You must complete a successful audition and/or interview/portfolio. Further guidelines regarding audition/interview expectations are available at www.rdc.ab.ca/performing_arts.

One-Year Music Preparatory Program

The one-year Music Preparatory Program is designed to:

- 1) provide an opportunity for students who have a general interest in music and wish to broaden their knowledge and skills;
- 2) provide an entry-level opportunity for students who are considering a career in music and intend on pursuing the Music Diploma program but have limited formal music training.

In this program you will learn the fundamentals of reading, writing, hearing, and performing music. Through classroom instruction and private lessons you will gain valuable knowledge and will sharpen your playing skills. Optional participation by audition in small and/or large ensembles will allow you to further develop your performance abilities.

The program has three main components:

1) Core Classes

All students are required to take classes in music rudiments and aural skills, introductory music history, basic piano, and communications. These courses will provide fundamental training in the basics of music.

2) Primary Instrument Study

Each semester of the program you will take private lessons on the instrument on which you had a successful entrance audition. Lessons are available on most standard instruments (subject to instructor availability). Current options include:

Voice	Classical Piano
Woodwinds	Jazz Piano
Brass	Classical Guitar
Percussion	Electric Guitar
Strings	Brass Guitar

Private instruction on instruments such as Organ or in areas such as Conducting or Composition may be available to qualified students.

3) Optional Classes

Depending on your interests, course load and performance abilities, a variety of music ensembles are open to all students on the basis of audition.

Note: Completion of the Preparatory Program does not guarantee admission into the Music Diploma Program.

Students who wish to pursue the two-year Music Diploma program at Red Deer College after completing the Music Preparatory program will be required to re-audition on their primary instrument. Since there is some overlap in course requirements between the two programs, students who complete the Music Preparatory program will have already fulfilled some of the requirements for the Music Diploma.

Admission Requirements

A) Academic Requirements

1. **High School Diploma** with a minimum mark of 50% in ELA 30-1 or ELA 30-2

OR

2. Mature Student

You must be 19 years of age or older, out of high school at least one full year before the program starts, and have a minimum mark of 50% in ELA 30-1 or ELA 30-2, or a minimum score at the 50th percentile on the English component of the College Board Placement Test (written on campus) or the Test of Adult Basic Education (written off campus) and a score of 2-3 on a writing sample.

1. **Audition:** College music study assumes that an acceptable standard of proficiency in an instrumental or vocal area has already been acquired. You must declare a principal instrument (eg. guitar, voice, piano, etc.) when you apply and present a playing audition on this instrument. You will continue to pursue lessons on this instrument during your time in the program. The audition consists of the following elements:

- a. A polished performance of two contrasting pieces of your choice that demonstrate your playing or singing abilities.

- b. A demonstration of technical skills appropriate to your instrument (eg. vocalises for singers; scales, chords, arpeggios, long tones, tonguing, etc. as appropriate for pianists and other instrumentalists).
- c. Aural tests (eg. recognition of chord qualities and melodic intervals, clapback of rhythmic patterns).
- d. Playing or singing a short unfamiliar excerpt at sight.
- e. A brief interview to discuss your musical background, interests and goals.

2. Theory placement test: This written test covers key signatures, major and minor scales, triads, intervals, meter and rhythm, and common musical terms. A score of 80% or greater is required. Students with Royal Conservatory Grade II Rudiments (or equivalent) are exempt. Requests for exemption should be directed to the Assessment & Test Centre.

B) Other Requirements

- 1. Audition:** College music study assumes that an acceptable standard of proficiency in an instrumental or vocal area has already been acquired. You must declare a principal instrument (eg. guitar, voice, piano, etc.) when you apply and present a playing audition on this instrument. You will continue to pursue lessons on this instrument during your time in the program. The audition consists of the following elements:
 - A polished performance of two contrasting pieces of your choice that demonstrate your playing or singing abilities
 - A demonstration of technical skills appropriate to your instrument (eg. vocalises for singers; scales, chords, arpeggios, long tones, tonguing, etc. as appropriate for pianists and other instrumentalists).
 - Aural tests (eg. recognition of chord qualities and melodic intervals, clapback of rhythmic patterns).
 - Playing or singing a short unfamiliar excerpt at sight.
 - A brief interview to discuss your musical background, interests and goals.

- 2. Theory placement test:** This written test covers key signatures, major and minor scales, triads, intervals, meter and rhythm, and common musical terms. A score of 80% or greater is required. Students with Royal Conservatory Grade II Rudiments (or equivalent) are exempt. Requests for exemption should be directed to the Test & Assessment Centre.

Note: The audition requirements and the theory placement test are the same for both the Music Preparatory program and the Music Diploma program. The results of these will determine the appropriate program placement. Further guidelines regarding audition expectations and the theory placement test are at www.rdc.ab.ca/performing_arts.

Please note that some courses are program specific and may not be available to Open Studies students.
2. If you do not meet admission requirements to certificate, diploma or university programs, you may complete those requirements and then apply to these programs.
3. If you require a high school equivalency math course from the CAP program as part of your Open Studies program and have been out of high school math for more than one year, you will be required to take a math placement test prior to registering for the CAP math course.

Admission Requirements

One-Year Certificate

Technicians have worked in the pharmacy field for many years, but only on-the-job training was available. In 1976, Red Deer College began a training program to more fully prepare technicians for their tasks.

Our graduates have been very well received by pharmacists and employers, and the responsibilities given to them have greatly expanded. This program should be of interest if you would like an officially recognized training period, followed by interesting and varied job opportunities in the pharmacy field.

Related Careers

Graduates work in hospitals, community pharmacies and related pharmaceutical fields, under a Pharmacist's supervision. Duties include:

- preparing medication for dispensing
- compounding pharmaceuticals
- preparing aseptic products
- inventory control
- purchasing
- merchandising
- record keeping as required under such acts as the Food and Drug Act
- narcotics control
- third party billing
- drug distribution
- prepacking pharmaceuticals
- computer processing
- clerical and other duties as necessary

The On-Campus Program

15 courses

3 terms

10 months (September to June):

- 8 months at Red Deer College
- 2 months of practicum
 - Community Pharmacy (140-160 hrs, 4 week block)
 - Hospital Pharmacy (140-160 hrs, 4 week block)

The Distance Program

Note: This is a part-time program.

15 courses

2 1/3 years

7 terms

- 2 months of practicum
 - Community Pharmacy (140-160 hrs, 4 week block)
 - Hospital Pharmacy (140-160 hrs, 4 week block)

To participate in the distance program, students must have access to a computer with Internet and e-mail capabilities. Distance students must also arrange for an approved examination proctor.

Lab courses are at the RDC campus.

Transfer Features

Pharmacy Technician courses taken at Red Deer College are not transferable for credit toward a Bachelor of Science Degree in Pharmacy at the University of Alberta.

Fast-Track Option

A fast-track option may be available to students interested in taking an accelerated distance program. This program allows students to take 2 first year courses and 2 second year courses each term. Therefore 4 courses per term in fall, winter and spring terms. Lab courses are taken here at RDC in spring term (May & June). This requires a commitment for 2 weeks in May and 2 weeks in June. Students then complete their hospital and community pharmacy practicums and the communications course in fall term of the second year. Therefore the "fast track" program is usually completed in 1 year plus 1 term. We advise prospective students to apply to the program and once accepted let the Pharmacy Technician Program Assistant know via email if they would like their name added to our list of students interested in fast tracking. "Fast tracking", if available, will be accommodated on a first come-first served basis following an applicant's acceptance into the pharmacy technician program.

Two-Year Diploma

Students may apply for the program on a fulltime or part-time basis, and application requirements and the application process are the same for each stream. Program planning will take place with students during the registration process.

The mission of the Social Work Diploma Program at Red Deer College is to prepare the student for employment as a social worker and to provide a foundation for further post-secondary education by introduction to and integration of: practice skills, theoretical knowledge base, and application of social work ethics and values. The Program fulfills its' mission through promotion of ethical practice, social and economic justice, respect for and acceptance of diversity among peoples, and relationship building.

Social workers are trained to 'help people help themselves'. The focus of social work is on the interactions between people and their social environment. The program looks at how to help people meet the demands of daily life. It looks at how social work seeks to improve people's problem-solving and coping skills, and links them with systems that offer resources, services, and opportunities.

Related Careers

Social Work Diploma graduates can expect job opportunities in both public and private agencies. You may work, directly or indirectly, with people having problems with finances, employment, child neglect, foster care, alcohol or drug dependency, marital and family conflict, young offenders, and individual emotional problems.

The Program

Objectives of the program are:

1. To provide a two-year diploma program in Social Work that will prepare students with the knowledge, skills, and attitudes needed for jobs in beginning social work positions.

2. To prepare students to continue their education in a Bachelor of Social Work program.

Transfer Features

The Red Deer College Social Work Diploma can be transferred to the Faculty of Social Work, University of Calgary (programs in Calgary and Edmonton, and Learning Circles Program offered at Red Deer College); the University of Victoria; Thompson Rivers University (Kamloops); University of Regina.

Admission Requirements

A) Academic Requirements

1. **High School Diploma** with no mark below 50% in:
 - a. ELA 30-1 or ELA 30-2
 - b. Social Studies 30

OR

2. Mature Student

You must be 19 years of age or older, out of high school at least one full year before the program starts, and have minimum mark of 50% in ELA 30-1 or ELA 30-2, or a minimum score at the 50th percentile on the English component of the College Board Placement Test (written on campus) or the Test of Adult Basic Education (written off campus) and a score of 2-3 on a writing sample.

AND

B) Other Requirements

1. Once it has been determined that you have met the academic requirements in (A) above, you will be mailed a package of materials which includes (a) a personal profile/questionnaire, and (b) three confidential reference request forms. All students are required to complete this questionnaire and arrange for their references to be forwarded to the College in order to have a complete admissions package.
2. You are required to complete a minimum of 100 hours of volunteer or employment in a related social service field. The purpose of the volunteer work is exposure to the human services field. It is recommended that volunteer hours be completed with one organization

when possible. Your main function must involve contact with people, and one reference form needs to be completed by the supervisor of the volunteer work. Please contact the Social Work program directly at 403-342-3304 to discuss the applicability of volunteer opportunities and/or employment for your application.

3. An interview with a Social Work faculty member is required as part of admission. Once your completed package is received by the College, you will be contacted for this interview. The majority of your work or volunteer experience must be completed prior to your interview with a Social Work faculty member.

Note: While not an admission requirement for the program, most practicum agencies may require Criminal Record Checks of students working in their organizations. Other agencies may require that instituted orientation programs specific to their agency be undertaken. Students should be prepared for approximately \$50 to \$75 in extra expense when placed in these agencies.

Increasingly, social work practice in many social services agencies requires workers to work extended hours of operation. Many agencies now provide a variety of programs associated with their services that operate on evenings or weekends. Students need to be prepared to work during non traditional business hours if placed in these agencies.

Note regarding university transfer: While students may enter the SOWK Diploma program without ELA 30-1, those intending to transfer to a university program are advised to complete ELA 30-1 before entering the program. This will enable you to take university transferable English courses in your first year. Students who enter the program without ELA 30-1 may take English 30 (or equivalent) upon admission to Social Work but may not complete the Diploma within four terms. ELA 30-1 is not credited toward Diploma requirements.

Two-Year Diploma Theatre and Entertainment Production

The Program

This program offers a Diploma in Theatre and Entertainment Production and prepares graduates to work behind the scenes in the live entertainment and event industries. The program includes components of class theory, studio training and hands-on practica in lights, scenic paint, props, sound, set construction, theatre design and stage management.

Students work in assigned practica as members of the resident theatre company, and are able to integrate their technical skills in the production of season of live theatre, in settings simulating professional conditions. Faculty and professional guest artists are the directors and designers for the plays produced by the Theatre programs. Students work in a variety of performance spaces; an exceptional Mainstage proscenium theatre of 576 seats, a black-box experimental theatre, found spaces and outside event locations. Productions in this program are technically challenging and provide valuable experience for student technicians.

In addition to the theatre productions, students have the opportunity to work on a variety of events that take place in the Arts Centre. Students are involved with the set up and operation of professional, touring theatre productions, folk jazz, and pop concerts, and a host of other events as connected with our performing Arts programs and Red Deer College.

Related Careers

We train technicians and craftspeople that work behind the scenes in the ever-growing entertainment industry. Our alumni are employed as stage managers, sound designers and technicians, follow spot operators, production managers, stage electricians, lighting designers and technicians, production management assistants, stage carpenters, scenic painters, and property builders.

Graduates working in production often join the International Alliance of Theatrical Stage Employees (IATSE), the labor union representing technicians, artisans and craftspeople in the entertainment industry, including live theatre, motion picture and television production, and trade shows. They may work on contract or may choose to freelance through the union.

Our graduates also work in related areas of the entertainment industry, including cruise ships, theme parks, concert tours, industrial presentations, specialized service companies, film and television. Some eventually move into more senior management positions.

Graduates may also choose to transfer credits and resume experience to B.F.A. or specialty study elsewhere in design or technology, or apply to continue training at RDC as part of our Applied Degree in Motion Picture Arts.

Transfer Feature

Theatre and Entertainment Production graduates can accumulate credits to transfer into year two of B.A., B.Ed., or B.F.A. studies at a variety of universities. RDC does have an agreement with the University of Lethbridge, which allows our Technical students to be admitted to the 2-year Post-Diploma B.F.A. (Dramatic Arts). Graduates are eligible to apply for the 3rd and 4th years of the Advanced Certificate and Applied Degree in Motion Picture Arts at RDC.
