

## Dedication

Mr. John Wilson was born in Gourrock, Scotland, and came to Canada as a child. His family settled on a farm west of Innisfail, where he lived until 1959, when he moved into the town proper. All his formal education was taken at the rural school near his home.

His divergent interests include curling and golf. He is a rifle shooting champion: he started in the Dominion Rifle Shooting Competition in 1928, and has won several provincial championships, and the Dominion Small Bore Championship, once.

We wish to acknowledge at least some of Mr. Wilson's many contributions in the fields of agriculture and education.

He is internationally known as an exhibitor, judge, and producer of purebred sheep. One of the more than one thousand awards he has received for sheep and wool exhibits at fairs, is the world grand championship for wool, which he has been awarded six times. At present he is President of Canadian Co-operative Wool Growers, Chairman of the Canada Sheep Producers' Council, and President of the Canadian Sheep Breeders' Association. He also is the longest continuous director of the Alberta Livestock Association. And he has been a director of the Calgary Exhibition for the past six years. All this has rightfully earned him membership in the Canadian Agriculture Hall of Fame.

Mr. Wilson's contributions to his community have likewise been outstanding. He has served as chairman of the Innisfail Municipal Hospital Board for many years. In education, he has served as school-trustee; Chairman of the School Committee, County of Red Deer; and Vice-chairman of the Red Deer Junior College Board since its inception. The John Wilson Elementary School, Innisfail, is named after him.

We consider it an honor and a privilege to have in our community a man who has contributed so much to our College, his county, and in fact, to our country.

To him, we respectfully dedicate this "Legacy".

## Editor's Message

By Darlene J. Letwinetz

The "Legacy" in your hands is the second yearbook of the Red Deer Junior College, an account of the students and activities of the college's second year of operation. It has been carefully prepared by the staff.

I should like to express my personal thanks to Mr. Bennett, staff advisor, who gave direction and sparked enthusiasm; Mike Sawyer, chairman of the advertising committee, whose efforts contributed to the financing of this "Legacy"; Ralph Blackmore, chairman of the co-ordination committee, who worked for hours alone and with his staff to arrange, rearrange, and lay out pages; Ron Snider, chairman of the photography committee, whose camera captured many of the highlights of the year; Phyllis Harasyn, chairman of the proofreading committee, who read and reread the copy in order that it might be submitted to the publisher free of error; and Arlo Speer, co-editor of the "Legacy", who organized, encouraged, and accomplished, all at once. And a special thank you to those who worked on the various committees.

The thanks of the yearbook staff is extended to the "Periscope" for the information it made available to us, and to the student body for their co-operation.

We are happy to bequeath to you this "Legacy", the memoirs of the class of '65 - '66.

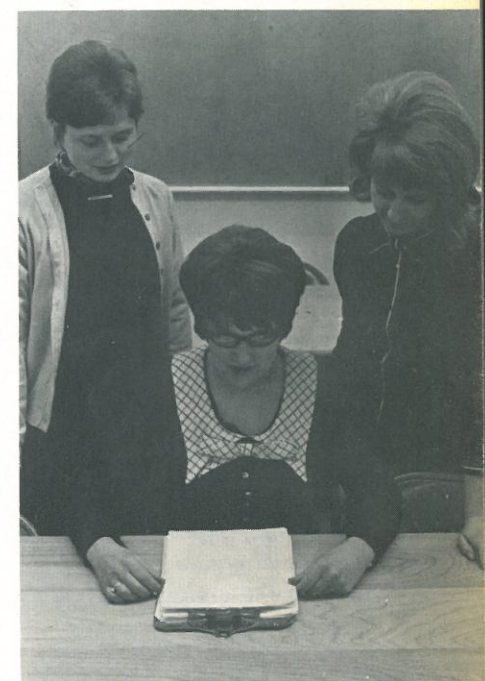

## The "Legacy" Staff

CO-ORDINATING COMMITTEE: Mary Steffler, Connie Polushin, Carol Bland, Dianna Humeniuk, Elaine Cust, Bev Huston, Ralph Blackmore, Chairman; Linda Peavoy, Judy Saxby.

PROOFREADING COMMITTEE: Irina Beringer, Sharon Graham, Phyllis Harasyn.

PHOTOS: Alan Yackulic, Ron Snider.

ADVERTISING: Dan Hagg, Don Berg, Mike Sawyer, Chairman; Jerry Wolfe, Gordon Landon.

## President's Message

Jack Hazelwood

On behalf of the Students' Council I would like to thank you, the student body, for having allowed us to serve you.

I have enjoyed this past year and I hope you can say the same. But it was not all fun. It required work, sometimes rewarded, sometimes not.

We, of the Red Deer Junior College were indeed privileged to be able to attend such a fine institution. As the second year class we have a right to be proud. Many new and successful clubs have been organized, not wholly by the council, but by enthusiastic members of the student body. Without the enthusiasm and support of these people and others like them, no governing body can succeed.

University — can you define this word? I cannot. It is a word which overflows with meaning. It means success and failure; happiness and sorrow; the future and the past. Yet in all these words I have only started. It is a way of life. To some of us it is pleasing and rewarding. These will continue past the first year on to three, four or even ten. To others it is not satisfying and rewarding. These people will turn down another road in order to fulfill their desires and ambitions.

Whatever you do, I hope you will be able to say that this year at the Red Deer Junior College has been a good year. I hope that you will be proud to be able to say that you were part of the second year class at the College. I know that the council and I are proud that we were chosen to lead you through your first year of university.

BACK ROW, Left to Right: Dan Hagg, Lola Nelson, Otto Schubert.  
CENTRE ROW: Dave Freeman, Betty Crooker, Mary Turner, Rae Kimball, Marcia Parsons.  
SEATED: Phyllis Trebble, Jack Hazelwood, Bev Flemming.

Pay to the order of Legacy

"Is this just a summer romance, or will you call me in the city?"

Hey girls! The guys are all behind you!

# Faculty

It is a pleasure to have this opportunity to convey a brief message to the second class of the Red Deer Junior College.

I would like to think we have had another successful year as the result of the fine co-operation that has prevailed among the constituent bodies comprising a college – Board, administration, faculty, students, and the community.

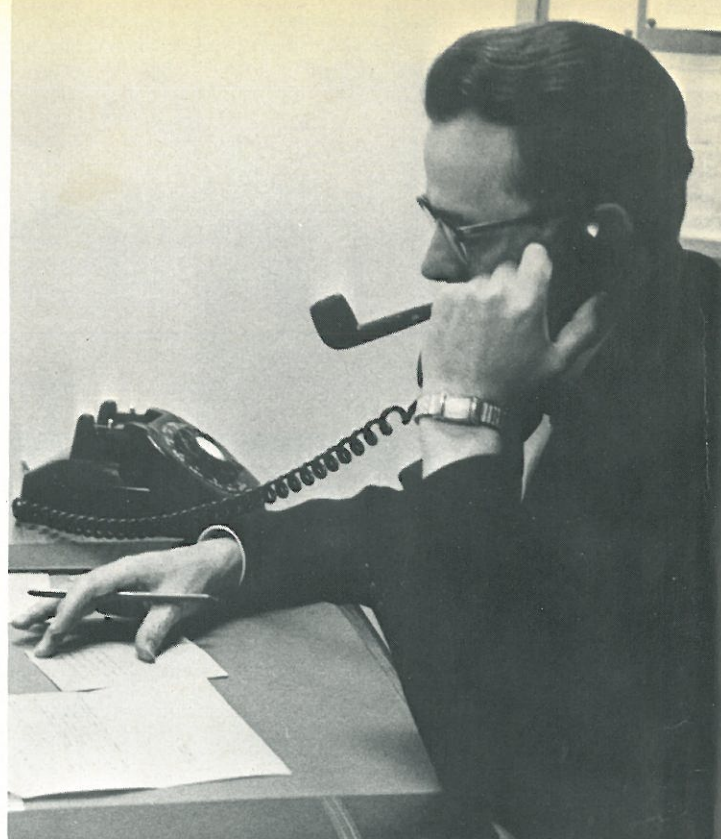

This year's student body has made a notable contribution to the richness of campus life, and to the continuing development of the traditions of the College. The College paper, *Periscope*, the Christmas Prom, our participation in the activities of the Western Inter-College Conference, the teach-ins, the expansion of desirable extracurricular activities – these are but some of the worthwhile additions to our campus that were realized.

I would like to pass along for the consideration of our students, the following thoughts on education by F. Earl Williams:

Education is not something done to but something done by an individual which is actually self-educational. It is a slow, subtle growth entailing a life-time of self-discipline and an unquenchable passion to learn and to grow up to the full stature of one's abilities. The outcome should be competent, self-active, responsible, and socially minded citizens whose lives are predicated on faith, courage, integrity, intelligence and the will to achieve.

This year as last, I have enjoyed immensely my association with a fine student body. I hope that all of you leave your Alma Mater with fond memories to be cherished in the years ahead, and that you will come back to see us when opportunities for this present themselves.

*P. Raffa*

# Students

# Arts

**Bernadette Anita Aubert**

This Physical Education major spends a lot of her time figure skating, soliciting advertising for the yearbook, and eating veal cutlets. Besides all this, she's on the college Queen's team. After she has completed her formal education, she hopes to teach or work in recreation.

**Donald Robert Berg**  
Hobbies: sports and girlwatching.  
Pet peeve: Trying to find a parking stall at 8:55 a.m.

Don is studying all the time, he says. And when he's not studying, he's listening to "primitive tribal music". Or is he???

**Gertrude Irina Beringer**  
Irina, from the county of Lacombe, was born in Helmstedt, Germany. She is a French and History major and keeps herself busy with skiing, reading, a stamp collection, and lapidary work. She has no particular peeves. Favorite food? smoked eel. And if she had a car, it would be a Citroin.

**Donna Mae Bolander**  
She was born in Olds. Her future plans are "very undecided". Her type of music is folk, and to go with it, Peter, Paul, and Mary. Green is her favorite color; macaroni, her favorite food. She likes Fords (wonder who has a Ford?). And better than anything else, she likes living.

**Barbara Brosseau**

She lost her first love in a shooting match, but her college loves were many. Her outside activities include . . . well, her inside activities include . . . well, she has been active. And don't forget the bus rides, 3 in 1. Barb is looking forward to a career as a social worker, socializing the natives of Trois Collines (her contribution to biculturalism).

**Hugh Robert Campbell**

Bob, from the county of Lacombe, is studying pre-law. His future plans are simply: "U. of A., Edmonton". His hobbies include skiing, skating, and other sports. "What shakes?" is his pet saying, and no wonder (his favorite singing group is the Beatles)! His pet peeve: French 200 and ALL ESSAYS.

**Lorna Corbett**

She's little and lively. One of her favorite sports is curling. She may be in law, but WE think she'd make a good chemist, wearing a clean white lab coat, holding yards of

glass and rubber tubing, and working in a shattered laboratory. . . . on the other hand, maybe she WOULD make a better lawyer.

**Daniel Bruce Edwards**

The man who runs the clocks at the basketball games. He's studying commerce this year. He and his tape recorder are frequent occupants of the common room. Heard most often from Dan is this: "I don't doubt it".

**Patricia Flanagan**

"Paddy" reads lots and lots of history textbooks and practices good study habits. She likes taking walks, but not home from R.D.J.C. by the short-cut. Her future plans include travel and perhaps a career overseas in the Foreign Service.

**Beverly Irene Fleming**

Bev is an active student of R.D.J.C., her college activities including, Student council, vice-president; yearbook advertising, and dance club. One of her hobbies is skiing. A sociology major, she hopes to do social work in the future.

**David Earl Freeman**

Dave, from Innisfail, an English major, considers teaching his probable profession. When asked how he would spend a week in Taiwan, he said: "Import an Eskimo girl and her igloo". A swimmer, skier, and dancer, he is a staunch supporter of college dances. Best of all, he likes people.

**Elizabeth Margaret Gibson**  
From Manitoba, originally, she is studying arts at R.D.J.C. She likes folk music, animals, (especially horses), and, best of all her own Pontiac.

What does she do Saturday mornings between 9:15 and 11:45? Study.

**Lynda Joan Grenville**  
Lynda is one of Blue House's most staunch supporters. And she is one of the R.D.J.C. students who has a study partner (just like the study guide said). After she has completed her formal education, she would like to be a social worker.

**Daisy Mae Hafner**  
Daisy has forsaken U. of C. for R.D.J.C. She hopes to be a social worker some day, but she's so little that we're afraid some delinquents might gang up on her! She is very interested in going to Banff to work this summer. Wonder why?!!

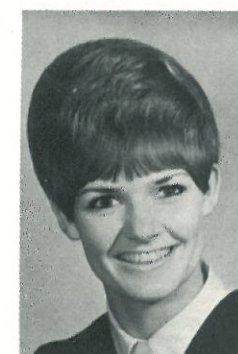

**Jack Hazelwood**

"The Bearded One". Jack is R.D.J.C.'s president. No doubt the students did pick the right man for the presidency but, oh, is he wicked in rugger! P.S. Even though the Council runs smoothly (they've adopted a constitution), his car doesn't.

**Marjorie Lynne Jones**

"Jonesy" is one of R.D.J.C.'s top sportswomen: a member of the Queen's team, a member of the Athletic Board, women's captain of Blue House, and President of Women's Intramural sports. She peppers all of her college life with vigour and vitality. Her future: social welfare work.

**John Keast**  
A Physical Education major, he likes all sports. But better than sports, he likes holidays in summer, which is understandable.

His pet peeve: chem. prof's. Future plans: uncertain.

**David Allan Kerr**

A friend's image of him: "Dave is active in basketball, intramurals, and the dance club. He is President of the Athletic Board. Dave's favorite course is history and he says he hopes to make 99% in the next test. Dave is congenial, well-liked, and he'll make a great Bank Manager".

**Rae Ellen Kimball**

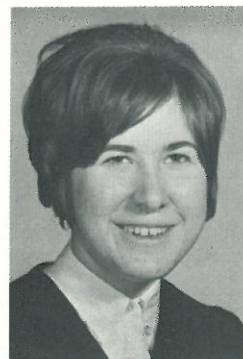

Rae, a charming, hard-working student, seems to have a perpetual store of energy which enables her to excel at anything she attempts. She may be seen carrying that good old LOAD of books and walking through the halls with our president. She enjoys working with young children and aspires to be a teacher. She is an Arts rep. on the students' council.

**Martin John Kroll**

This much we know: his favorite saying is, "I've just come down with stephalocooccus of the lower phyla gustus, but I'll pull through".

**Darlene Judy Letwinetz**

Darlene, who came to us from north-west of Ponoka, is "Majorless". This, however, does not prevent her from being a package of energy. Her ceaseless vigour kept the Yearbook staff going. . . . She hopes to enter the diplomatic corps of the Canadian Foreign Service. Listening to music (any kind), reading (almost anything), and talking with people are her favorite "hobbies". In fact, Darlene **LIKES** people.

**Sharon Anne Mehan**

Is aspiring to be a social worker. Her favorite color is green, suggesting tolerance. Her favorite television commercial is:

Anacin, for throbbing, hammering headaches. Is she consistent? Is there any connection here? We wonder.

**Holly Roberta Megson**

Holly, another top basketball star, intends to be a Physical Education teacher. Best of all, she likes passing tests and boy watching. A very diligent student, she studies even on Saturdays. Her favorite saying: "I'll bite." Bite what?

**Sheryl Joy McNaught**

She'd like to finish her B.A. and then - settle down on a little farm. Her hobbies: horseback riding and sports. Her pet peeves: people who say "ever-so" and "repulsive". She likes butterscotch sundaes (oh, all those calories!). And best of all, she likes meeting pleasant people.

**Frances Mowat**

She's a swimmer and a student (a good one, in both cases). And she spends a good lot of time in the Physics Lab. A French major, she hopes to teach high school French after graduation or, in her words, "if I ever get out". And it's ten to one, she will.

**Lola Nelson**

"Miss Nelson, you're late". Famous last words heard in 508, Geography Lab, Mondays, Wednesdays, Fridays, and Thursdays. Arts Rep. on the Students' Council, she ordered and distributed our long-awaited sweaters. Next year, Brigham Young University, Utah.

**David Harvey Niblock**

A native Red Deerite, he majors in History. He enjoys curling, fishing, and golfing.

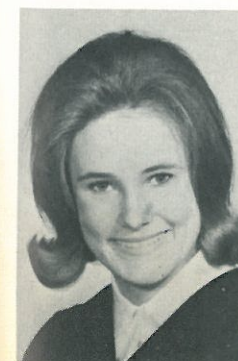

His favorite food: fried chicken (Kentucky?).

**Edward Robin Oldring**

Robin spends most of his time stealing from the rich and giving to the poor . . . so? . . . . He has the best counselling service in town, and last Christmas he got his own couch. Besides basketball, he plays the piano, trumpet, guitar, mandolin, and ukelele. Future plans: U. of C.

**Marcia Helen Parsons**

Student co-ordinator of college activities, she includes among her future plans becoming a "professeur", tripping off to shady Europe, and marriage (not necessarily in that order). In her SPARE time she enjoys speedskating (she's a champion), piano, horseback riding, and singing. A busy girl, always ready with a smile. She attaches particular significance to a '47 Chev.

*Barbara Jean Paulsen*

*Barb is an individualist who claims that her favorite movie is "I was a Teenage Barfly". She adores sesame seed snaps. Knowing Barb, we are sure she has a bright future in any career she chooses. Her hobbies are Dance Club and Drama at the college.*

*Michael David Sawyer*

*Mike is the chairman of Legacy's advertising committee. He considers himself a college spectator, but he's not really, what with sports, reading, and "working hard". Mike says he'll spend his future in university.*

*Paul Robert Schwindt*  
*Paul is from Ponoka (enough said).  
Peanuts cartoons are his passion.*

*Paul's main contributions to the college are through the Drama Club and the Periscope (assistant editor). Anyone around him can be assured of an UPROARIOUS time.*

*Twylla Rose Sharp*

*Twylla is one of our renowned basketball players. Not only is she diligent in attending basketball practice, but from appearances is also diligent in her study habits, even while she is eating.*

*Patricia Gail Smith*

*Pat has one of the best hobbies anyone could have. She believes in doing what seems fun at the moment whether it be singing, listening to music. A nickname such as "Sabersides" doesn't seem appropriate for a girl with a soft heart, especially for kittens. She likes all kinds of music, except jazz.*

Picture  
Unavailable

*Ron Snider*

*The Yearbook's Photography Editor, Ron divides his time equally between Alan, his camera, and the dark room. Next year, he plans to attend U. of A.*

*Phyllis Louise Trebble*

*"Thumper" Trebble likes the color orange, the food spaghetti and meatballs, and, best of all, days on which she accomplishes everything she sets out to do and has some fun, too. She is R.D.J.C.'s Executive Secretary. After she has studied honors languages, and has taken a secretarial course she hopes to work anywhere in the world. Favorite saying: Jeremiah Christopher!*

*Dorothy Jean Trenerry*

*Jean is taking Honors Arts at the college and some day wants to be a Grade 8 teacher. She says she likes happiness best of all.*

*This goes along with her favorite saying, "some of us have it, some of us don't". Jean obviously has it, happiness and brains.*

*Beverly Tucker*

*Bev, from St. Albert, hopes to become a stewardess. She likes sports, all sports, and she has attended almost all home basketball games and out-of-town ones as well. If you'd like to know more, ask Alexis.*

*Theresa Webber*

*Theresa is another of R.D.J.C.'s Queens. We suspect that the source of some of her energy is that stew that she lives on (just about). The one cloud on her horizon is the front gate, not really a cloud at all. It neither opens nor shuts conveniently. A History major, Theresa hopes to be an exchange teacher after she has completed her formal education.*

# Education

**Bruce Arne Barlund**  
Bruce, born in Red Deer, is from the L.T.D. #65. He is majoring in Biology – worms, frogs, rats, etc. His future plans include a B.Ed. and teaching (naturally). He has a variety of hobbies – learning to play (guitar), skating, going to movies – the finer things in life. Bruce likes best of all, \$10 steaks (and who doesn't). (Red Skelton is Bruce's idol).

**Ralph Dale Blackmore**  
There is more to him than meets the eye. He likes Pineapple Delight and saying things like: "Put a sack over your head and go play in the traffic". He is artistic. Although we DIDN'T know it, he spends much of his free time

trying to create a masterpiece. We DO know that he did an excellent job as co-ordinating editor of this "Legacy". His future plans include travelling.

**Carol Eleanor Bland**  
Carol, born in Toronto, is now from Ponoka. For music, Carol picks a station which suits the particular mood she is in. She likes to have a sense of accomplishment in things she has done. Her friends say she is "sweet and innocent" and has the knack of getting them into trouble by sweetly saying something they weren't going to tell, not until later.

**Sharon Elaine Boomer**  
"Boom" hails from of all places – Red Deer. She is a History major. Her favorite singer is Hank Snow and her color – green (envy?). Sharon likes Pink Panthers and hockey games but dislikes turnips, spinach, cabbage, bologna, eggs, crabapples, parsnips, dry bread, and margarine. With that combination of likes and dislikes, Sharon is sure to be a success at something.

**Garry Wayne Bowman**  
Garry is another future teacher who is majoring in math. He comes from the County of Mountain View and enjoys hunting, fishing, and horseback riding. Garry dislikes intensely deep snow in his parking spot. Blue is Garry's color and Chinese food, his favorite food. Saturday morning Garry likes to think of the good time he had Friday night and hopes to have Saturday night. A trim little brunette back home is what he likes best.

**Alexis Kathleen Braithwaite**  
Alexis is originally from Rimbey. She worked a while before coming to college so no doubt she knows all about the big wide world we live in. Those who know her say she was a real terror (when she was little). Her main interest lives in the U.S. Everyone agrees she has a real sense of humor. Perhaps the college or at least the basketball fans, will remember her best as the basketball game score keeper.

**William Herbert Carruthers**  
Bill is from the County of Lacombe-Bentley, to be exact. He is majoring in math. Bill's future plans include getting his masters in math and going abroad. The athletic type, his hobbies include swimming, skating, and water-skiing. Week-

end assignments are his pet peeve. For a car he would be satisfied with anything having four wheels. "Great, great scott!" is what Bill would say if he got a high mark on an exam paper (doesn't he usually?)

**Eugenia Valeria Christian**  
Gay hopes to be an exchange teacher so she can travel. On Saturday mornings she does a lot of homework and a lot more of eating (so we are informed). Gay's extracurricular activities keep her out of mischief. Her main contribution to the college is her prowess as a basketball player; she ranks about third in total number of points for the girls' basketball team.

**Patricia Cody**  
Now Pat, once Pody Cat, comes from Sylvan Lake. After College she would like to be an elementary school teacher. She is interesting to talk to, in fact she is in the middle of many of the group discussions around the common room and elsewhere. If you want to know anything about petite Pat, just ask anyone of Lorna Corbett, Dave Freeman, or John Slaymaker.

**Ray Blair Craigie**

Born in Innisfail and educated mostly in Bowden, Ray, otherwise known as Scotty, hopes SOMEDAY to finish college in the faculty of Physical Education. His favorite pastimes include sports, partying, and girls. (He didn't specify any order.) We wonder if there is any connection between his favorite pastimes and favorite movie – "Mad, Mad, Mad, Mad World". He's frank about all matters and doesn't beat about the bush. (A friend's image).

**Elizabeth Marilyn Crooker**

Betty is our Educational Sociologist from Ponoka. Like the other members of the "fair sex" she loves to go on Shopping \$prees and \$pending money. Incidentally, her favorite color is green. Among her likes are the latest T.V. programmes, the shortest commercial, and "A Man Called Peter". Betty is a good education rep., but her friends tell us she hates getting up for the morning meetings.

**Elaine Cora Cust**

From the way she answered her questionnaire, the indication is that Elaine is serious-minded, putting her homework first and then enjoying herself – reading, bowling, skating, dancing, and cooking, besides other mentionable things.

Elaine is majoring in English. She plans to teach after her second year of university, returning to get her B.Ed.

**John Oliver Dale**

Jack or 'Curly' is one of R.D.J.C.'s future great cartographers. Just think, he got his start in good old Geography 201 – his favorite course. Wherever Jack goes you will find Gerry Wolfe also. They are inseparable buddies. Jack plays the straight man while Gerry is his humorous counterpart. Jack is a good friend to have. He even supports intramurals, and reads his history ahead of time.

**Bertus De Bruijn**

Bert is a very studious person who has an extremely well-planned study schedule. He seems to be wildly interested in all the subjects he is taking, music especially, as it is his major. Interpreting English works is one of his strong points. Bert is a friendly person whose cheerful smile encourages those who have a bad case of the blues. And most of us have, at least some of the time.

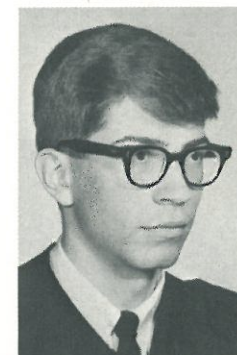

**Diane Dyck**

Diane has neither a definite major nor definite plans for the future. But she has a rather different kind of hobby, photo tinting. Diane likes life the best of all and her major activity in the college is "on the volleyball court." Her favorite color is blue, her mood, cheery.

**Mike Lewis Evans**

A Southerner at heart, "Junior" has a variety of interests ranging from "love" to "comparative anatomy". It's a miracle he's still around for he's been devouring his favorite combination for years – pizza and vodka. (yecht!). Mike loves fun in any way shape or form – maybe that's why his future plans include the U. of A.

**Richard Harold Flake**

To enjoy life and travel are Harold's future plans, but since he is in Education and majoring in science, it looks like he will have plenty of hard work ahead of him. Harold is a country boy whose pet peeve is filling out questionnaires.

His hobbies include horses and music (country and western). We do know that he can pick a swinging tune on that guitar of his, by the way.

**Barbara Forrester**

Barb is a blushing, blue-eyed blonde from Ontario. Among the many things this college will remember her for is her contribution to the basketball team. Barb's many interests include sewing, folk singing, Larry, dancing, sports, and Larry. Barb's future plans are a B.Ed. at U.A.E., then elementary school teaching, and then Larry. If you can't find Barb, just look for another Barb – Barb Brosseau. And there she'll be.

**Yvonne Connie Gerhke**

Yvonne is a fun-loving Delburne girl. She says she wants to teach in isolation. Maybe it is because she wants to escape those hopeless students who ask her to write up Foundations tests. Yvonne admits that she likes social activities and sports best of all, but those who know her best know that she is also a hard-working student who always has her assignments done AHEAD of the deadline.

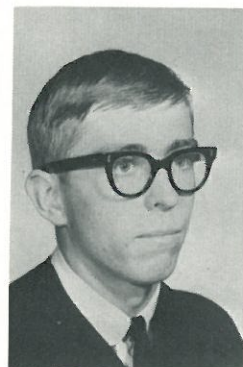

*Rosebud Miriam Granlund*

*From the Alhambra district, Rosebud is an English major. Rose's likes and dislikes are varied. We'll prove it: pickled herrings, mushrooms, olives, Hungarian goulash, anonymous telephone calls, CBX, and Ed Sullivan. You decide which she likes and which she doesn't. Her future plans include visits to Latin America and Africa.*

*David John Gunderson*

*"Gundy". His majors are History and basketball. As for distinguishing characteristics, three: a grin, a 1955 Dodge Custom Royal, and Robin Oldring. If you look for Dave outside class hours, look in pizza places, at the newstand (James Bond section) or just on the corner – that's where he said he'd be. Dave plans to teach Social at the secondary school level.*

*Karin Nellie Hallin*

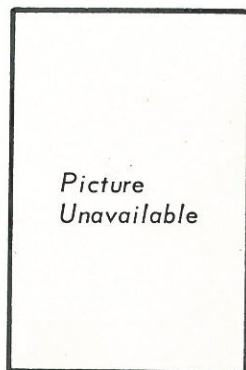

*Karin's passions are Hitchcock movies and a guy in Calgary. Karin mustn't have any younger brothers or sisters or else she is very different than most of us – she likes working with young children. But, this should prove help-*

*ful in her career as she's aspiring to be an elementary art teacher. Good luck, Karin.*

*Ryan Harju*

*Ryan is maybe a R.D.J.C. philosopher, at least he does some philosophizing on the way home from basketball games. Music and his religion are his pleasures, sleep he finds most beneficial. He would like to travel around the world, living about a year in each country.*

*Picture  
Unavailable*

*Betty Lou Hogg*

*Betty comes to Red Deer from Trochu (a sub-division of Three Hills). Betty's time is taken up with intramural activities, and trips to Calgary. With any additional time she enjoys oil painting and classical music. Betty's future plans are to get her B.Ed. at U.A.E. and to stop someone from going to Toronto. Her biggest problem seems to be her transportation.*

*Dianne Humeniuk*

*After high school, Dianne completed a secretarial course. Because she was not satisfied with her job, she decided upon more education. The result? She is a student here at R.D.J.C. She hopes to teach high school math after completing her education. Dianne is rather susceptible to advertising. (she buys "Aero" chocolate bars because of the T.V. commercial) We have Dianne to thank for her typing of part of this book.*

*Colin Barry Hunt*

*Colin, from Red Deer, is another history major. He didn't specifically say so, but we've got a feeling that he hates yearbook questionnaires. Why? Because we don't know very much about him outside of the fact that he is married and works on Saturday mornings, driving a bus.*

*Picture  
Unavailable*

*Beverly Lynne Huston*

*Beverly is very unselfish with her time. Much of it is devoted to the yearbook, intramurals, and of course, studying. Her hobbies include sewing, cooking, and skating. She is teasing and often teased about the song "Back*

*to Huston". Being happy, with no worries, is what Bev would like best.*

*Kathleen Marie James*

*Kathy, now living in Blackfalds, was born in Didsbury. Her major is French – History. Her immediate future plans are getting through university (we doubt that she will have much trouble with that). An active girl, her activities include: Dance Club, Drama Club, skiing, skating, bowling and intramurals. Being with people whose company she enjoys is what Kathy likes best.*

*Jalna Janeinne Joel*

*Jalna, now from the County of Red Deer, was born in Moose Jaw, Saskatchewan. She is majoring in mathematics. She likes being happy and happy people. Her pet peeve is those 4:00 – 5:00 classes. Jalna can take things as they come because she says "What you don't know doesn't hurt you".*

Reid Kerr

Sigmund Freud would have a lot to say about Reid, for his favorite color is red! But we've got something else to say: He's a great guy and another of our family men, combining two occupations, and doing a good job of it. A pilot now, he'd like to teach Social Studies after his university training.

John Arthur Letourneau

John, formerly from Saskatchewan, is now from Red Deer. He is majoring in Biology. He has two future plans: teaching high school biology, and seeing the world. His hobbies include bowling, cars, and girls. John's pet peeve is essays. (Anyone's in particular?) His radio station is CHED. Five, just five more minutes of sleep when it's time to get up in the morning is what John really likes.

Patricia Rose Nixon

Patsy has a very pleasant personality and is a pleasure to be around. She is one of the people at R.D.J.C. who appreciates music. Her pet saying is "C'est la vie". Patsy lives for the weekend dances at home and then, coming

back to Red Deer Sunday afternoons.

Bonnie Lillian Oppelt

Bonnie enjoys modern dancing, modern jazz, drama, bowling and skiing. Like a lot of other college students, this vivacious blonde chooses Chinese food as her favorite. Best of all she likes sleep. Bonnie is a math major.

Barbara Elaine Pearson

Barbara is one of the more serious-minded students in our college. Not only is she a hard worker, but also a musician, piano player, that is. Barbara always has a smile and a "Hi!" for everyone she sees. Her future plans include teaching and a trip around the world.

Linda May Peavoy

Sewing, cooking, and sleeping are Linda's favorite pastimes, but she doesn't have much time for the last one. (According to the study guide). Linda hopes to take her second year of Education in Edmonton.

Marjorie Ann Peers

"Marg", from Acadia Valley, is a History major. She likes reading, painting, sewing, skating, swimming, jazz, and mushrooms. Her pet peeve is people who lie. (Ours is people who don't fill out questionnaires). Marge wants to teach after she has completed her education.

Dan Robert Peters

"Bob" is enthusiastic about all his subjects. A resident of Red Deer area, he's now earning his teaching certificate. He enjoys singing, but one of his "favorite pastimes" is studying history and

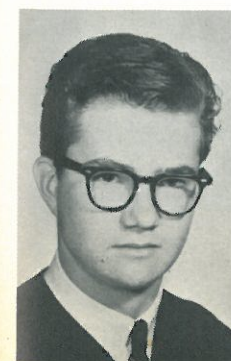

geography. (So he can pass in April). His all-round personality has contributed much to R.D.J.C.

Randy Peters

Randy is an English major. He likes most music, brown for a color, Mennonite food, and his pipe. He's busy - directing the Red Deer Barbershop Chorus, participating in an operetta, driving his Chevy, earning his B.Ed., and, most important of all, - looking after his wife.

Ross Trevor Phelps

A rhythm and blues fan, Ross also likes sports, Dodge Corvets, and best of all, friendly people, but he wouldn't give a f(r)iend a chance to describe him to us. As a history major, Ross hopes to teach outside of Alberta somewhere, in the future.

Constance Ellen Polushin

Connie is from Rimbey. English major, teacher, farmer's wife, in that order are her ambitions so she says. "Repulsive", and "How about that, song fans?" are "Airs" favorite sayings. Choir, writing poor poetry, and sewing are her hobbies. Connie, Sheryl, and Keith compose a familiar part of the college scenery. The fact of the matter is, she goes for a tall blond in a big way.

Wendy Reynolds

Petite Wendy Reynolds is a music major. Her friends say she has a terrific sense of humor, which is easily discernable from her bubbling personality. She likes and participates in most sports. Wendy finds those 4:00 math classes a constant aggravation.

Brian Albert Rottenfusser

"Barney" wants "to be a school teacher until after I make my first million". He's going into education for the money. (What money?). He likes blondes, brunettes, and redheads, not necessarily in that order. And, he likes anything good

made from apples, including apple cider. Pet saying: "Go away and let me sleep".

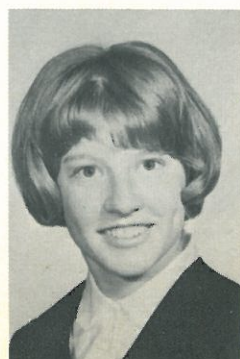

David James Savage

This future school superintendent hails from Stettler. His hobby is building custom cars, and his pet peeve, women. But he's inconsistent because, while he likes cars best of all, if he were in Taiwan, for example, he'd CHASE WOMEN! Oh, well, boys will be boys. . . . .

Judy Muriel Saxby

Judy, from Pine Lake, would like to earn her B.Ed., then go into social work. She likes "Peanuts", the cartoon, and spareribs with pineapple sauce, (the food). Green is her special color, but her special song depends on the mood she is in. A happy moment with a friend is what Judy enjoys most.

Patricia Kay Schalin

Pat is a typical student who is carefree most of the time, but can be serious if necessary. To achieve her good marks she works hard throughout the week but enjoys herself on weekends. Her friends say, "You name it and Pat is game for almost anything!" After university, she'd like to teach "little ones".

Patricia Alison Scott

"I mostly see Pat en profile, but still. . . 'was that the face that launched a thousand ships'. . . ? Pat herself: a fine friend, and vogue. (I can imagine her in Paris, but teaching?). Math problems become a snap with Pat and doing them fun. What more can a stammering adorer say?"  
- a friend from Math class

John Charles Slaymaker

Friend's image: John has a highly creative personality; his imagination perceives many unknowns, and his quest for entertainment leads to amusement for others. He has a great talent for impressionistic dancing and should thus be ac-

claimed. Acknowledge the artist in our midst!

Marlene Anne Smith

If you see a cute little brunette rushing up and down the halls - that's Marlene. Even the longest legs find it hard to keep up with her. Marlene plans to teach elementary French. Her pet peeve is Alberta's cold weather - she plans on travelling. We are sure that nothing but "le meilleur" will come to Marlene.

Lea Snyder

Lea, born in Edgerton, is now from the Lacombe county. "To be a teacher of students who love me", is her plan for the future. Like the rest of us, she likes the shortest commercials and the cheapest toothpaste. Her pet peeve, none other than professor, whom she claims, ISN'T a pet. She likes all kinds of music, and CHED. Her hobby is "Our Suite". Lea's roommates readily agree that she's the one to have around for all occasions.

Arlo Nathaniel Speer  
 "Censored" Speer. (That's what he said his nickname was). Arlo is a Country and Western fan, and being a consistent chap, he likes CFCW best of all radio stations. Arlo's hobbies include playing the piano – accordion and square dancing. He made a contribution to R.D.J.C., especially as a member of the Drama Club and as the "only permanent member" of the Debating Club, and as "Legacy" co-editor. A mathematics major, he hopes to teach secondary Maths and French.

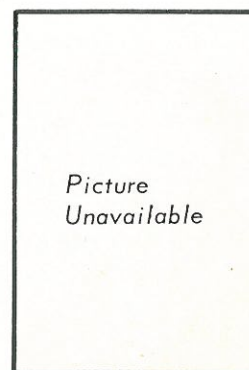

Mary Angeline Steffler  
 Mary, hailing from Carstairs, likes Buick hard-tops, Chinese deep-fried shrimp, and action. Quite a combination. "Maffey Jo's" future plans include teaching in two years and then going on for her B.Ed., but we doubt that education will be the only bachelor she will get.

James Thomas Sturgeon  
 Jim, a mathematics major, aims to be a teacher and a farmer. He comes from Mirror and doesn't have a pet peeve. (The sign of an easy-going guy). He likes Country and Western music and most sports, but doesn't like electric kettles that hum. Jim decides what he is going to do ac-

ording to the way he feels at the particular time, eg. coffee OR hot chocolate?

Dan Tkachuk  
 Dan's part-time job at ASH and his studies keep him a busy man. However, he does take time out for sports – he likes them all. He likes Chinese food and History. The latter, his major, will prepare him for a career of teaching – preferably high school Social Studies.

Picture  
 Unavailable

Mary Ruth Turner  
 Mary "Turnip" is one of the Faculty representatives of Education. A French major, she is also on the College basketball team and professes to be an avid hockey fan. Mary is one of the few college students who enjoys classical music, and other of the fine arts, at least that we know of. Her future plans include teaching French 10, 20, and 30.

Shirley Ann Van Eaton  
 Mrs. Van Eaton commutes to R.D.J.C. from Olds. (In a Volkswagen, of course). She enjoys spending Saturday mornings with her family, knitting, and sewing. She hopes to teach elementary school after she has completed another year of university. Like many students, her pet peeve is the time limit on exams.

Donna Marie Walton  
 Donna, a Physics major, hopes to teach for a while (maybe!) in the future. However, she may not be teaching if she continues to write letters in Physics and Math classes. Donna is a believer in the fine arts of painting and reading. Her pet peeve is long weeks and short weekends.

Sheila Jane Webb  
 Sheila hails from Three Hills, and is a French major. Sheila enjoys sewing and all sports, but simply detests busy telephone lines. (We have no information as to how busy she keeps them). Sheila is a staunch

supporter of intramurals. She is also a good curler. She goes home every weekend. (Could there be some attraction there?).

Sister Martin of Christ  
 Sister Martin is Majoring in English at R.D.J.C. She likes cheese, her favorite color is brown, and she is an avid N. H.L. fan. It is both her enthusiastic support of league intramurals and her calm serenity that we have most appreciated this year. Sister Martin hopes to teach in a high school after she has completed her academic training.

Terry Dean Welty  
 A person from Red Deer, whose hobby is wine-making, who listens to CHED, who likes the color blue, and who uses "Stripe" has no definite future plans, yet. We'll take this opportunity to wish you success, Terry and let your plans be a surprise.

Joan Ann Williams

Born in Calgary, Joan is now a resident of Red Deer. Joan's future plans include teaching, although now she doesn't have a major field of study. She definitely does not wish to teach History or English. Her pet peeve is carrying books to and from college. Her favorite music is folk music and jazz.

Carmen Eugene Wright

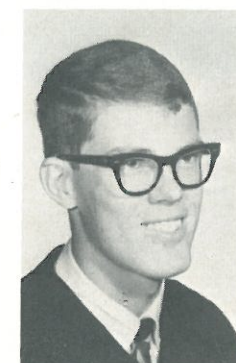

Carmen, a student from Mountain View, is majoring in Math. Best of all he likes 'a nice quiet little blonde.' His pet peeve is her mother. He enjoys hunting, country and western music, and Jimmy Rodger's singing. Carmen says he doesn't get any Joy out of detergent bottles.

## Science

David Keith Berry

Dave is the tallest basketball player on the team. He hails from Innisfail and has "much car trouble". Huck hopes to become an immortal biologist. Dave is the top scorer in the W.I.C.C. Congratulations!!!

Russ Blackstaff

Russ is a Red Deer lad in Commerce, but plans to switch to Geography. Russ enjoys skiing and

popular music (the Watusi on skis?). Best of luck, Russ.

Walter Chmilowski

Walter is our traveller. Originally from Belgium, he has travelled to France, Germany, and, finally Red Deer. He likes modern music and "The Man from U.N.C.L.E." Walter states that his college activities are: doing as little as possible. But we don't believe it!

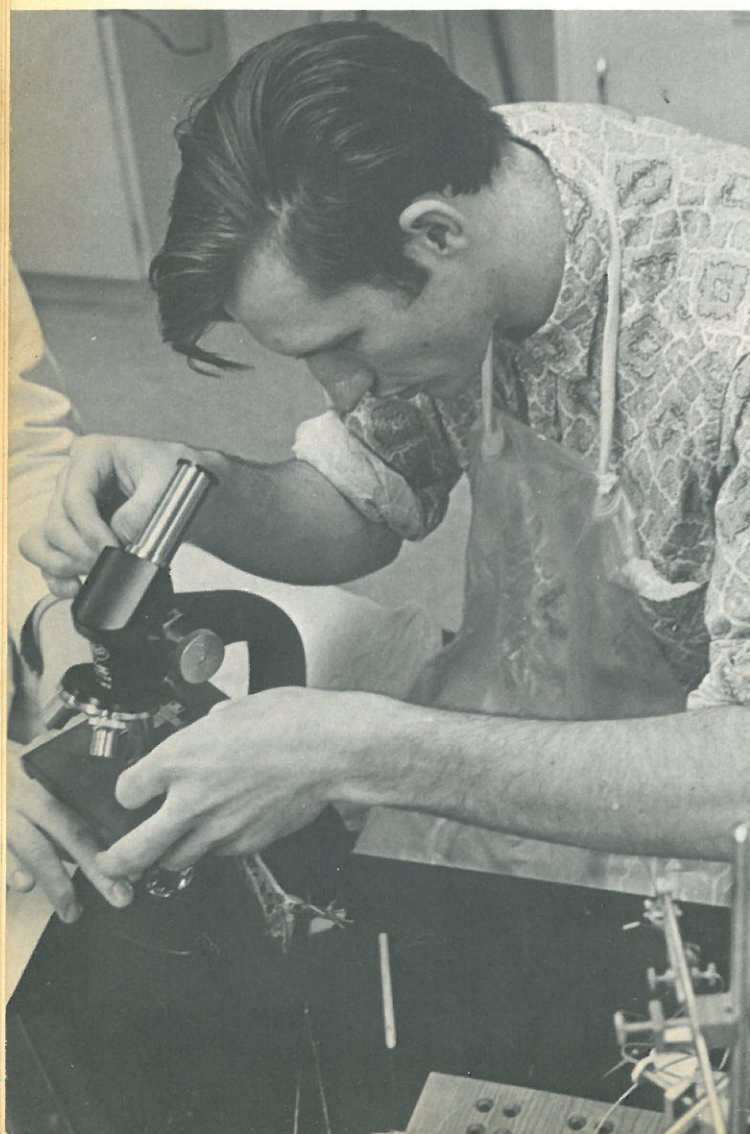

Ken Code

A Chemistry major with future plans - sometimes. Ken's nickname is CENSORED. He likes all folk music, especially that of Peter, Paul and Mary. Some of Ken's activities are . . . WOW!!! And that leaves us in suspended animation.

The Biology Lab  
Dave Berry

The Chemistry Lab  
Ray and Jack

**Judy Lynn Craven**

One of RDJC's top science students, Judy is contemplating a change to the Faculty of Education in the not too distant future. In the meantime, she'll keep practising the good study habits she has acquired, continue to earn the good grades she deserves, and, with study hours over, she'll listen to Bob Dylan, the Beatles, and the Rolling Stones, her favorite singers.

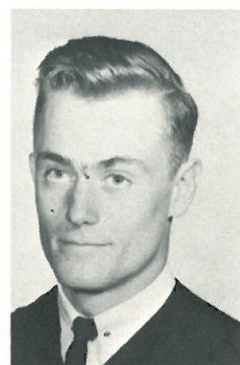

**John Jerry Feddes**

John has a real career ahead of him. He plans to be an Agricultural Engineer, but if he doesn't make it he says he'll be a fresh air sampler. "Fred" was born in Holland but came to US from Rocky Mountain House. He is in the Faculty of Science and majoring in Agriculture, of course.

**Wesley Caryle Glenn**

Wes, who is from the County of Lacombe, is an Agriculture student. His hobbies are sports - curling, hockey and baseball in particular. In the future, he intends to do agricultural work abroad (sounds inter-

esting). His favorite movies are comical ones and his color is green. A rare one, Wes works hard on Saturday mornings - feeding cattle to get his fresh air.

**Sharon Marjorie Graham**

A Science major, Sharon is aiming for a career in pharmacy. An enthusiastic young lady, she avidly watches all the Heinz pickle advertisements as she listens to Frantic Frank on CJCA and eats pizza. Saturdays she spends her time doing a week's supply of dishes. When asked why she lets the dishes pile up, her reply is "That'd be telling."

**Dan William Hagg**

Dan, RDJC's \$50,000 a year physicist is a Yearbook and Students' Council member with a sense of humor. His tastes range all the way from a certain pair of red socks (R.S.B.'s) and the movie "Santa Claus Conquers the Martians" to Mario Lanza and classical overtures. Hagg appreciates the finer things in life, such as the Red Baron, "Mommy, there's no more Zee", and sleeping in Math classes. We hope that Dan achieves his goal (although it's unlikely that he'll do it on a diet of Cheezies), so that he'll finally be able to afford his favorite car, a 1947 Chev Super Sport.

**Phyllis Ann Harasyn**

Phyllis hails from Vegreville, Alberta, although she now resides in Sylvan Lake. A Science student this year, she intends to switch to Education next year. We all enjoy Phyllis's infectious laugh and her gay personality. She represents RDJC on the Bay Teen Council and aspires to be the first woman astronaut - outer-space sales campaign perchance???

**James Clarence Hill**

Jim is a Math major. He enjoys skating and other sports, is an active contestant in intramurals, and has a great sense of humor. He lives in an apartment with three buddies, but HE put his foot through the wall and THEY had to hang a calender to cover it!

**Winnifred Hilsenteger**

Mrs. Hilsenteger is earning her B.Sc. in Nursing. "Winnie" spends her Saturday mornings supervising seven little helpers

who do the housework. She is interested in social work. Her pet peeve: People who say "I can't". We wish you every success in the future.

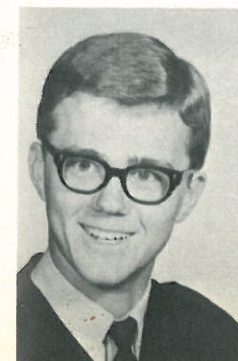

**George Holmes**

A Chem. major, George likes cars and girls. He spends Friday afternoons preparing Chem assignments and other afternoons (at least one other afternoon) getting 600 lbs. of ICE from James'. Two questions: How did you get that ice into your Anglia and how did you manage to get a speeding ticket?

**Glen Humeniuk**

He's planning to switch from Science to Commerce next year. And in the meantime, he keeps himself busy with hockey and basketball. He likes redheads and pizzas, but NOT talkative women. However, we think he must be an o.k. sort of guy because he even gets along with his sister. His future plans, like those of the rest of us, include seeing the world.

*Jim Ireland*

*Jim comes to us from R.C.A.F. Penhold. He hopes to become a Math major and plans to attend Calgary next year. He likes Rock and Roll Music (Rolling Stones variety); especially "I'm Free". Jim enjoys sports such as Golf, Curling and Hockey.*

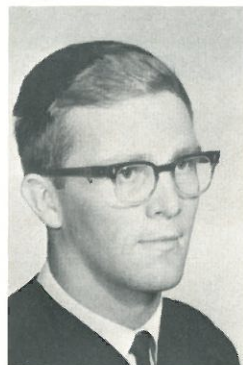

*William Wayne Jackson*

*"Willy" hails from Mountain View and is taking Agriculture. His aim: Finish college! He likes to play a ball game, eat a good meal, and then take his girl friend to a show, probably a "James Bond".*

*Dennis Albert James*

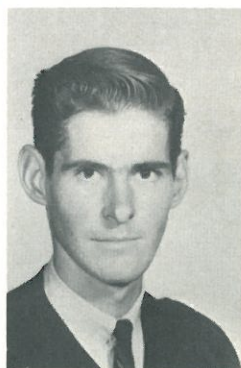

*Dennis is a member of the Faculty of Science who plans on doing research work in physics. He has strong feelings about music and a certain Periscope: the former he likes, the latter . . . well. Dennis*

*is VW admirer, with a wild color combination - Alaskan purple and pink elephants. His chief like: baby girls (about 1,000 weeks old), His Saturday morning activities: just about anything.*

*Darryl William Kealy*

*Darryl is our sportsman: he enjoys basketball, tennis . . . and girls! Presently, Darryl is a Chem. major but is undecided as to join those who follow Medicine or Law. A jazz or classical music fan, and a user of Tide as a toothpaste, Darryl is SURE to go far in the future.*

*John Lambert Krenn*

*Lambert is a home-town boy who aims to be a dentist. "Post" as he is called, likes sports and his pet peeve is: - maybe he hasn't got one. His friends say he is a dependable, trustworthy guy, who makes the kind of friend they like to have.*

*Gordon Landon*

*Gordon is our Honors Chem. student. When not driving his Austin, Gord dreams of zooming up and down streets in his Jag XA-150. He'll be well remembered for falling asleep in cars.*

*David Kenneth Mahoney*

*Dave is a very busy lad. He combines all this: scuba diving, driving a sports car, working at the Bay, the Periscope, listening to the Smothers Brothers, and eating chicken. How does he do it all? We don't know. But to top it off, he plans on obtaining his M. O.*

*Marilyn May*

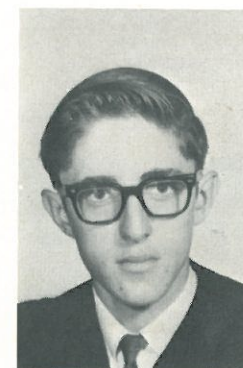

*Marilyn comes to Red Deer from the fair city of Winnipeg. She is in the Faculty of Science but plans to switch to the Faculty of Education next year (another one gone). This*

*gay young lady works at the Bay, is an active participant in intramurals, and enjoys a particular dance band!*

*Gordon McArthur*

*Gordie's interests range from hunting and fishing to taxi-dermy. His greatest dislike is profs who give hard exams (no names mentioned). Gordie is a member of our College basketball team, and is a James Bond admirer (who isn't!). Best of luck in your future, Gordie.*

*Mrs. Miles*

*An R. N., Mrs. Miles decided (with the help of husband and friends) to earn her B.Sc. She enjoys working with youth and has directed and assisted in the supervision of several summer camps. Her hobby: Photography. We're glad she's attending R.D.J.C. The experience she has had in her chosen field has been a definite asset to many of our class discussions.*

**Keith Neilson**

Keith hopes to eventually become a bio-chemist, but his biggest goal in life is to be lazy and rich. (We know that he will have no trouble fulfilling the first portion of this desire). He likes girls and sports (in that order?). He played with the R.D.J.C. Kings.

**Linda Ann Poffenroth**

Linda's pet peeve is people who don't mind their own business. But she does like the Sound of Music, semi-jazz, steaks, and hunting. She is now a Chemistry major. Her sense of humor matches her quick mind.

**Melvin Ras**

Mel is a Holland-born member of the Faculty of Commerce who plans on becoming an accountant. Mel has one peeve - he hasn't a middle name. Despite the fact that Mel's

chief like is doing nothing, his Saturday mornings are spent working and his college days are spent looking educated.

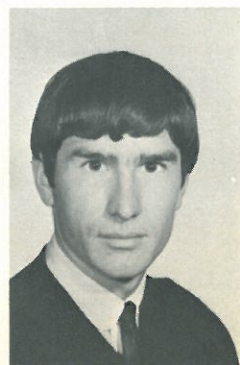

**Brian Rideout**

Brian is an economically-minded Phys. Ed. major. He enjoys James Bond pictures (who doesn't?) esp. Goldfinger. In the college Brian is an active participant in intramurals. His thoughtfulness and consideration of others are two appreciated character traits.

**Wayne Roberts**

Wayne comes to us from Birmingham, England and maybe that accounts for his hair-do. Wayne is a Biology major who likes rhythm and blues music. He enjoys fairly regular attendance at the college.

**Otto Mauricio Schubert**

Otto was born in Djakarta, Indonesia. A science rep., he is in the field of Medicine: Good luck, Otto. Future plans include travelling to South Africa or Australia, and being a good neurologist. If he bought wide-lined refills by mistake, he claims that he would draw giant-sized zebras - he does things in a big way. His winning personality and good head make him an asset to the college.

**Mary Starchuck**

Mary is a Biology major, a basketball player, and a scuba diver. She has a keen interest in music (she spends her Saturday mornings doing theory). She likes jazz, Barbara Streisand, and hamburgers. Mary hopes to earn her B.Sc.

**Bruce Stonell**

Bruce is one of our majorless Science students. When not walking, Bruce enjoys driving his Austin.

At the moment he has no definite plans for the future; he has decided to let nature take her course.

**Donna Wales**

'Doc' as she is known, is a Pre. Med. student from Caroline. In her spare time, Donna enjoys riding her horse and playing her guitar. Her pet saying is "What d'ya want me to do, roll in the snow?". Her pet peeve is boys with beards. Donna is a lover of country-style music and she was one of RDJC's queens.

**Dorothy Walker**

Dorothy is our ORIGINAL Chem. student. She thinks of science as a PRACTICAL field of knowledge. Dorothy sees NaOH as a great snow removal agent. And, she has a secret desire for money; maybe that's why she's the Legacy treasurer.

**Sandy White**  
Sandy is our yearbook secretary. Resultantly, she spends tons of time typing minutes or, more usually, the minute. After university Sandy would like to teach Home Economics.

**Trevor Whiteford**  
"Trev" is a commerce major whose major like is money (logical, n'est-ce pas). He plans on finishing University sometime. Trev likes Rock & Roll music and folk singing, especially Joan Baez.

**Jerry Wolfe**  
Jerry is our Chem. major who makes the second half of the Wolfe-Dale twosome.

It may be said that among his major likes is the fairer sex. Maybe that's why his last name is what it is.

**Richard Alan Yackulic**  
"R.A.C.Y." is best known as Periscope's Editor-in-Chief. A "physics" major, he naturally spends much of his time STUDYING (he claims) besides photographing, swimming, drill instructing, and the like (we claim). His future plans: a darkroom in 516 and "physics prof. at R.D.J.C., 1972".

# Activities

Dave Kerr, Dave Freeman, Dave Gunderson, Mr. Lalor, Lynne Jones, Connie Polushin, Sheryl McNaught.

I think it is only fitting that the college as a whole, in the yearbook, pay tribute to Mr. Lalor for the time and assistance he readily put forth towards athletics this year. There is little doubt that any glory brought to the school, any personal athletic achievement, any team success, was made possible almost solely through the hard work of "our coach". Mr. Lalor instilled the acceptance of sportsmanship and teamwork into a bunch of gangling, gawky basketball players and they in return tried to give their most. He helped Mr. Proudfoot coach the cross-country teams; he assisted Mr. Bennett with the organization of the badminton tournament; he was faculty advisor to the Athletic Board; he organized and ran all intramural activities; he played on the faculty's volleyball team; he refereed Rugger; lead the Women's Basketball Team to the Western Inter-Collegiate Conference championship (ask any girl - they won it for Mr. Lalor); and was always ready and willing to help anyone in any way he could. Mr. Lalor inspired not only the teams he coached, but the whole of the college into taking an active part in school affairs. For all that Mr. Lalor has done for college athletics, we extend to him a very hearty and sincere "Thank You".

Captain of Kings - Dave Gunderson

LEFT TO RIGHT: Lambert Krenn, Darryl Kealy, Keith Neilson, Gordon McArthur, Dave Kerr, Dave Berry, Glenn Humeniuk, Ryan Harju, Ray Craigie, Dave Gunderson, Robin Oldering, Brian Rottenfusser, Manager; Mr. Lalor, Coach.

#### R. D. J. C. KINGS & QUEENS

LEFT TO RIGHT: Twylia Sharp, Holly Megson, Bernadette Aubert, Sharon Boomer, Judy Saxby, Lynne Jones, Gay Christian, Donna Wales, Theresa Webber, Barb Brosseau, Barb Forrester, Mary Starchuk, Mary Turner, Dorothy Walker, Manager; Mr. Lalor, Coach.

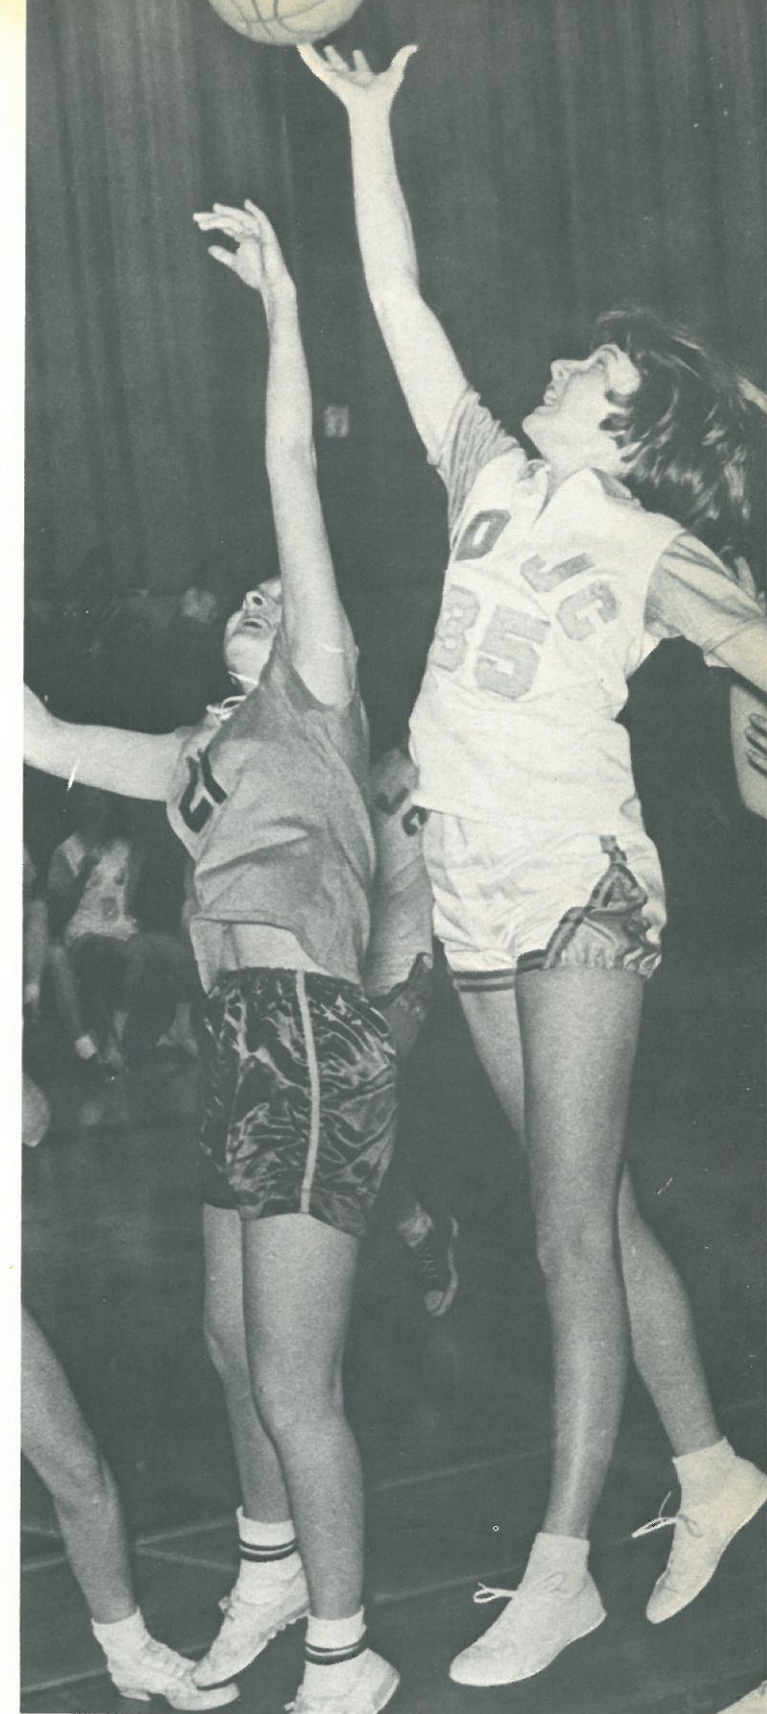

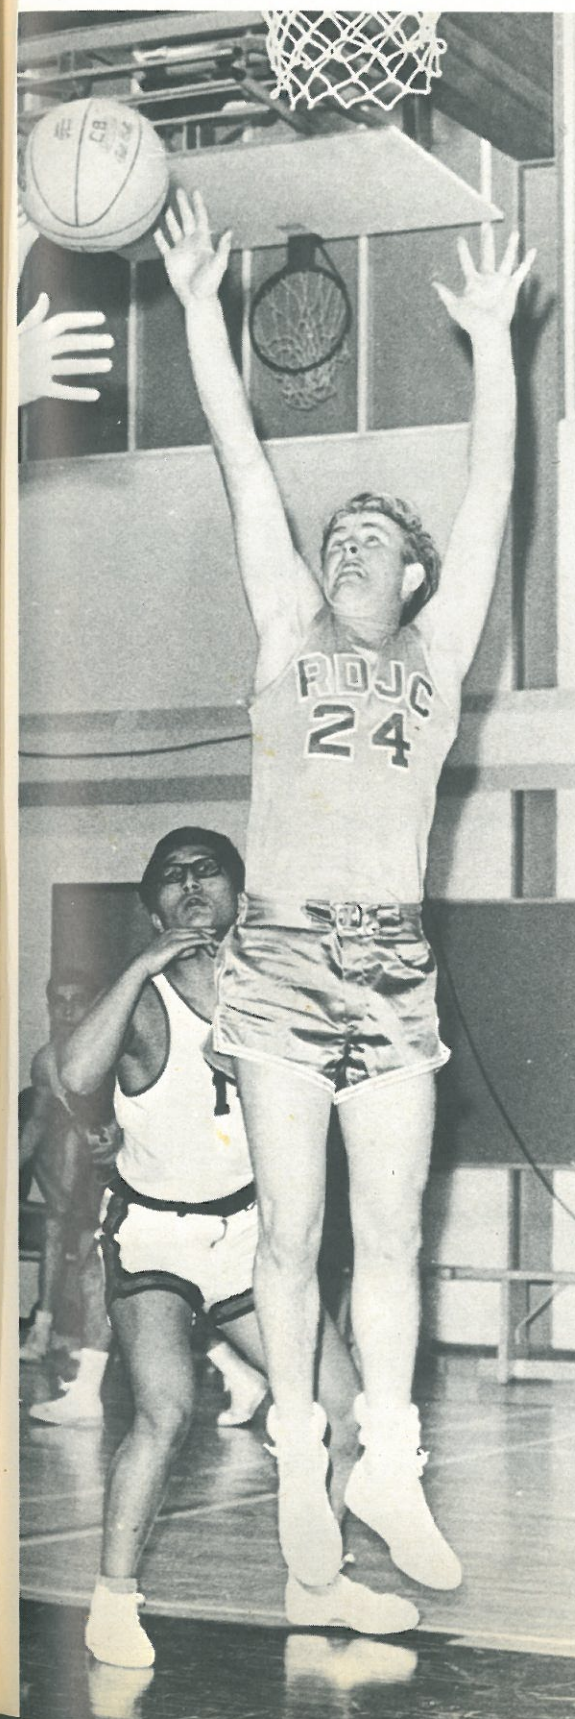

Best of luck from **ROLLIS AGENCIES LTD.**

*Don't push!*

*stretch, bend, stretch, . . .*

**LANDON'S JEWELLERY** - "Quality Pays"

## Cross-Country

The Intramural Cross-Country under direction of Mr. Proudfoot were run before the WICC Cross-Country Championship in Lethbridge in October. The first five finishers in the boys' run (2 miles) were Harold Flake (Blue), Jim Sturgeon (Gold), John Kroll (Green), Dave Gunderson (Blue), and Dave Kerr (Green). Harold's time was 12:12 min. The winners of the girls' run (650 yds.) were Marcia Parsons (Green), Sheryl Pape (Green), Gay Christian (Red), Lynne Jones (Blue), and Marilyn May (Green) for fourth. Marcia's time was 2.07 min. Good student participation was shown in spite of the rigours of such an event.

The women's team lead by Francis Mowat won a full minute and seven seconds over their nearest rival, Calgary Mount Royal College. The men placed third with brilliant team effort. The time spread was just 43 seconds and all placed in the first fourteen.

Harold Flake, Dave Gunderson, Otto Schubert, Dave Kerr, Jim Sturgeon.

Girls' Intramural Cross-Country.

## Badminton Club

Lambert Krenn, Vice-President; Dave Gunderson, President; Kathy James, Secretary; Mr. Bennett.

## Intramural Hockey

## Volleyball

Oh! what a way to go!

In Intramural Volleyball, Green House attained top points by winning five out of their eight games. Connie Polushin, Sheryl McNaught, Rae Kimball, Linda Peavoy, Sharon Meehan, Bonnie Oppelt, Sheryl Pape, Marilyn May, Holly Megson, and Marcia Parsons were on the winning team. Red House won both the second and third spots.

Red and Green House tied for top spot in the men's Intramural volleyball with a win - loss ratio of 5 - 3. The staff entered a team. Naturally the students were obliged to let them win a few games. In fact they let them win enough to place ahead of Gold House in the final standings.

RDJC entered a Girl's Volleyball Team in the WICC Conference in Calgary on February 26; at the same time as the Basketball finals were being held. Next year, perhaps the team will do better.

Take that and that and. . .

BACK ROW: Ralph Blackmore, Bonnie Oppelt, Mr. Farthing, Pat Smith, Bruce Barlund, Beth Gibson.  
FRONT ROW: Irina Beringer, Paul Schwindt, Kathy James, Arlo Speer, Barb Paulsen, Bert DeBruijn.

## Drama Club

### REHEARSALS

The RDJC Drama Club was well supported this year. Before the Christmas Vacation they met every Monday from 5 - 6, and read different plays. After Christmas the Drama meetings became more and more intense, climaxing on Thursday, February 10. The WICC Drama Festival was held the next two days in Red Deer with three plays each night. In the pictures below you see Ralph Blackmore, Pat Smith, and Paul Schwindt relaxing between rehearsals, while in the middle picture Bruce Barlund is about to begin a fight by hitting someone with his lunch pail.

Maurya (Irina Beringer), mother of seven dead sons in "Riders To The Sea"

"Mourners" from "Riders To The Sea". Pat Scott, Yvonne Gehrke, and Kathy James.

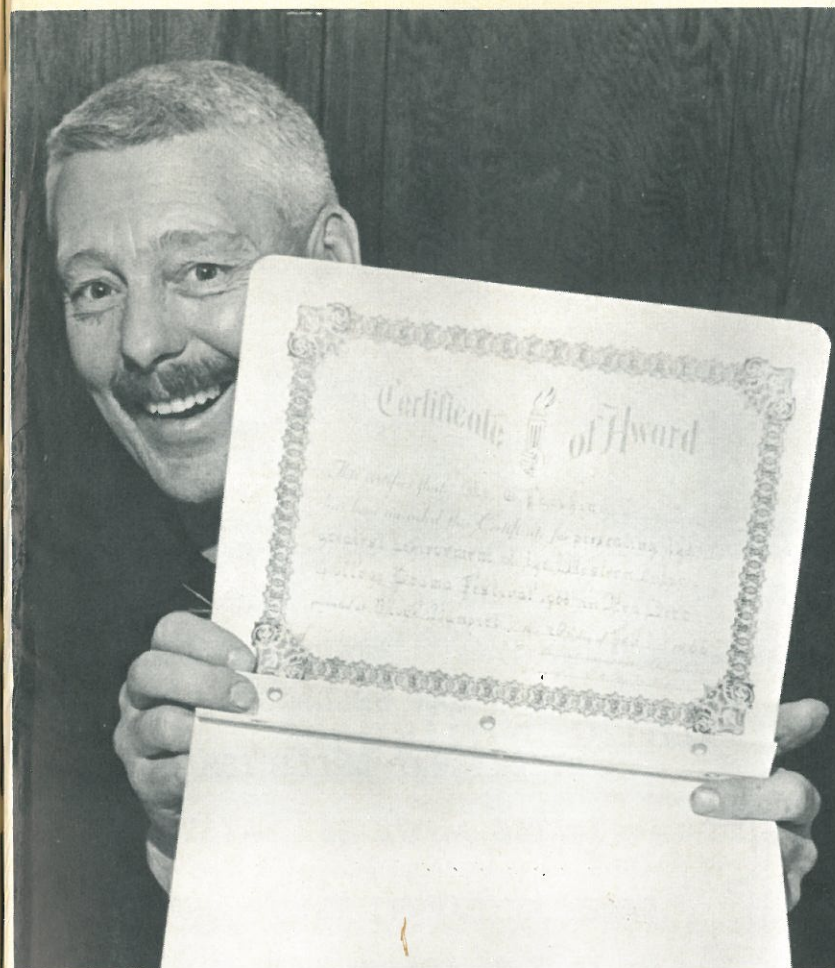

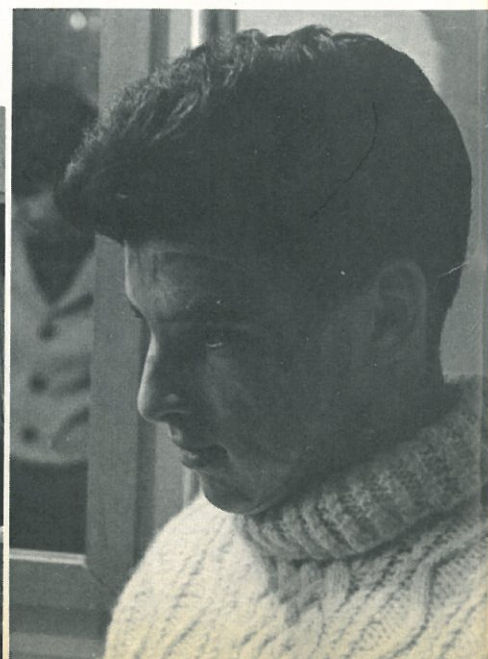

Another mourner, Barb Paulsen.

## The Festival

On Friday February 11, a good sized audience saw "The Stronger" (SAIT) by August Strindberg, "Riders To The Sea" (RDJC) by John Synne, and "Antigone" (Mount Royal College) by Jean Anouih. All these plays won an award. "The Stronger" received the trophy for best play as it was technically perfect. Pat Smith in "Riders To The Sea" received best supporting Actress. "Antigone" received two awards; Louise Young, best Actress in her role as Antigone, and Gary Rybicki, best supporting Actor for his role as Croesus in "Antigone". Saturday night saw three more plays: "Hewers of Coal" (RDJC) by Joe Corrie, "Ways and Means" (Lethbridge) by Noel Coward and "The Valiant" (Camrose Lutheran College) by Robert Middlemass and Harold Porter. Michael Clemens in his role as Toby Cartwright in "Ways and Means" was chosen as best Actor. Mrs. K. Grieve, Calgary actress, director and radio personality was the able adjudicator for the festival. Mrs. Grieve was full of praise for the fine efforts shown by all the participating colleges.

"They're Michael's I tell you" says Pat Smith to Bonnie Oppelt.

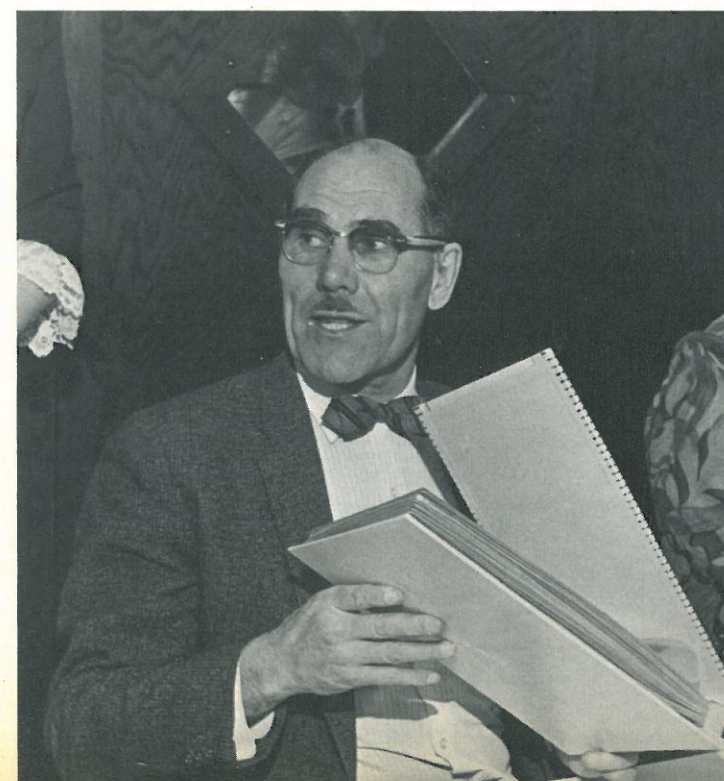

Mr. Farthing, director of "Hewers of Coal".

Mr. Campbell, director of "Riders To The Sea".

Mrs. Glebe who received all the participants as they arrived.

## Debating Club

The RDJC Debating Club participated in four debates this year. Two of them were defaulted by Camrose and NAIT. Mr. Speer and Miss Craven lost to Lethbridge on the topic of Culturalism. Mr. Evans and Mr. Rottenfusser won over SAIT on the topic of Canada Abolishing Constitutional Monarchy, of which they took the affirmative side.

Bev Tucker, Mr. Farthing,  
Darlene Letwinetz, Mike  
Evans, Arlo Speer, Brian  
Rottenfusser.

How do you do?

Is this the receiving line?

## Christmas Prom

Everyone who attended could be heard murmuring long after this prom. It was a real success. George Brown and his orchestra entertained girls in their evening gowns, attended by their escorts, at the Holiday Inn on December 16. The room was richly decorated with Christmas trimmings; largely by Marcia and her helpers. There were candle lit tables bordering two sides of the floor. Behind the tables the walls were covered with flowers. A receiving line consisting of Jack Hazelwood and Rae Kimball, Dr. and Mrs. Craigie, Mr. and Mrs. Wilson, and Dean and Mrs. Raffa greeted the couples as they entered. The punch bowl was a popular spot. A short program was provided by Darlene Letwinetz, Marcia Parsons, Robin Oldring and his folk-singing group, the instructors of the Dance Club, and Peter Chabanawich on the piano. Everyone joined in to sing Christmas carols after. It was a perfect beginning for a Christmas vacation.

Are you going to tell us who she is, Dave?

Candle light, candle bright, what's your wish tonight, Bernie?

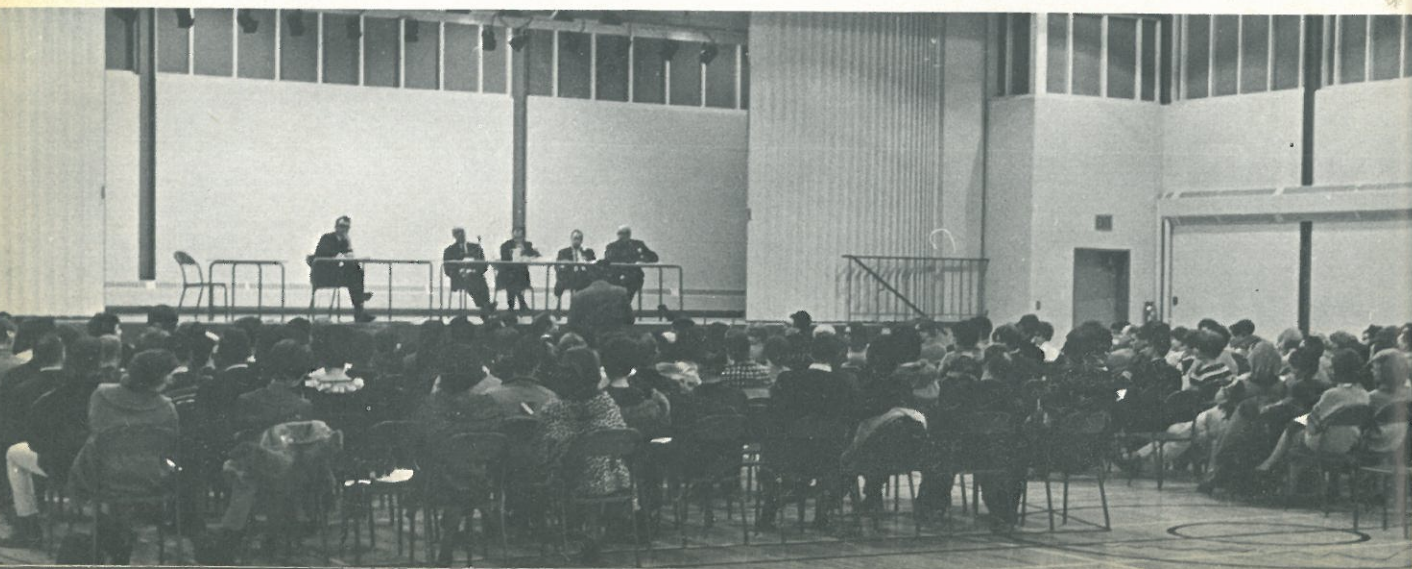

Belle of the ball - that's our Lea!

## Teach-ins

The College sponsored two teach-ins in the past term. One was concerned with Adoption and Religion, and the second with Crime and Delinquency. The speakers at the first one on Adoption and Religion were Reverend T. J. Kroetch, Reverend Harold Branton and Mr. Irvine, a welfare worker. Speaking at the second teach-in on Crime and Delinquency were Doctor G. Nettler, a criminologist from U. of A.; Mr. Milman, case worker of John Howard Society; Lieutenant A. Ryan, from the Salvation Army; and William Speechly, an ex-convict. Mr. J. Proudfoot was the moderator for both the teach-ins. The teach-ins were well-attended and were considered successful.

## Alumni Weekend

RDJC's Alumni Weekend was held on March 4 & 5. On the Friday evening everyone enjoyed the teach-in on Crime and Delinquency and a lunch in the Common Room. Saturday was open house with displays in all the labs. Our Kings and Queens played the Alumni teams. The undisputable highlight of the weekend was the "Dog" - Sled Race. Each house plus the Alumni entered a team consisting of three boys and a girl pulling a girl and a bag of snow for each of four laps. Enthusiasm was at its greatest for the start of the race which saw many of the "dogs" trampled, trying for a good track position. A dance with the Rebels culminated the weekend's activities.

Something wrong Betty? Most colorful team!

Could he be cold?

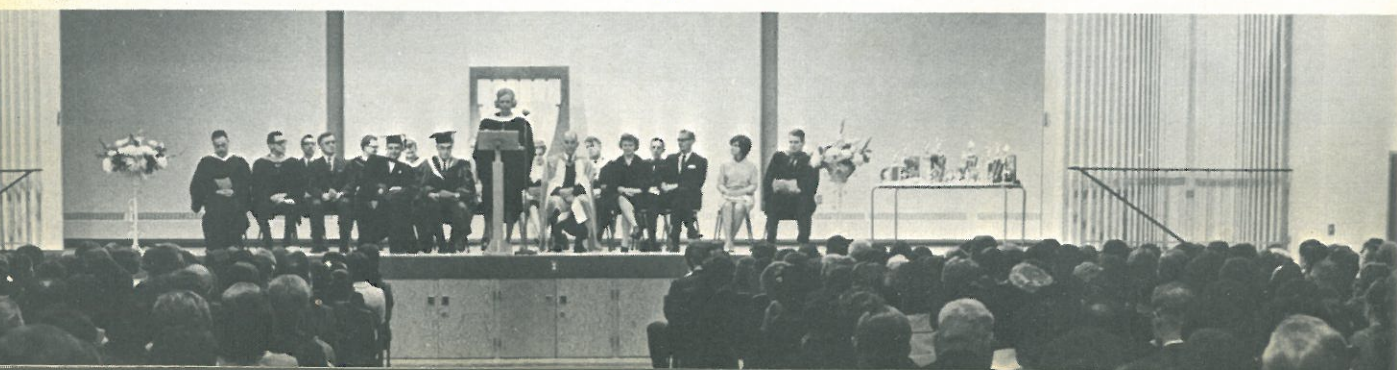

## COMMENCEMENT

One of the most successful functions of the college year was Commencement Exercises on April 1. Almost the entire Student Body attended. Many parents and friends showed their interest and support by their attendance. The program consisted of messages from several guest speakers and concluded with the presentation of athletic and merit awards. Musical interludes were provided by students from the Music 200 class. Coffee and doughnuts were served afterwards.

Commencement Exercises Award Winners

ALUMNI AWARDS:

G.O.M.B.W

Watch closely or you are sure to miss it.

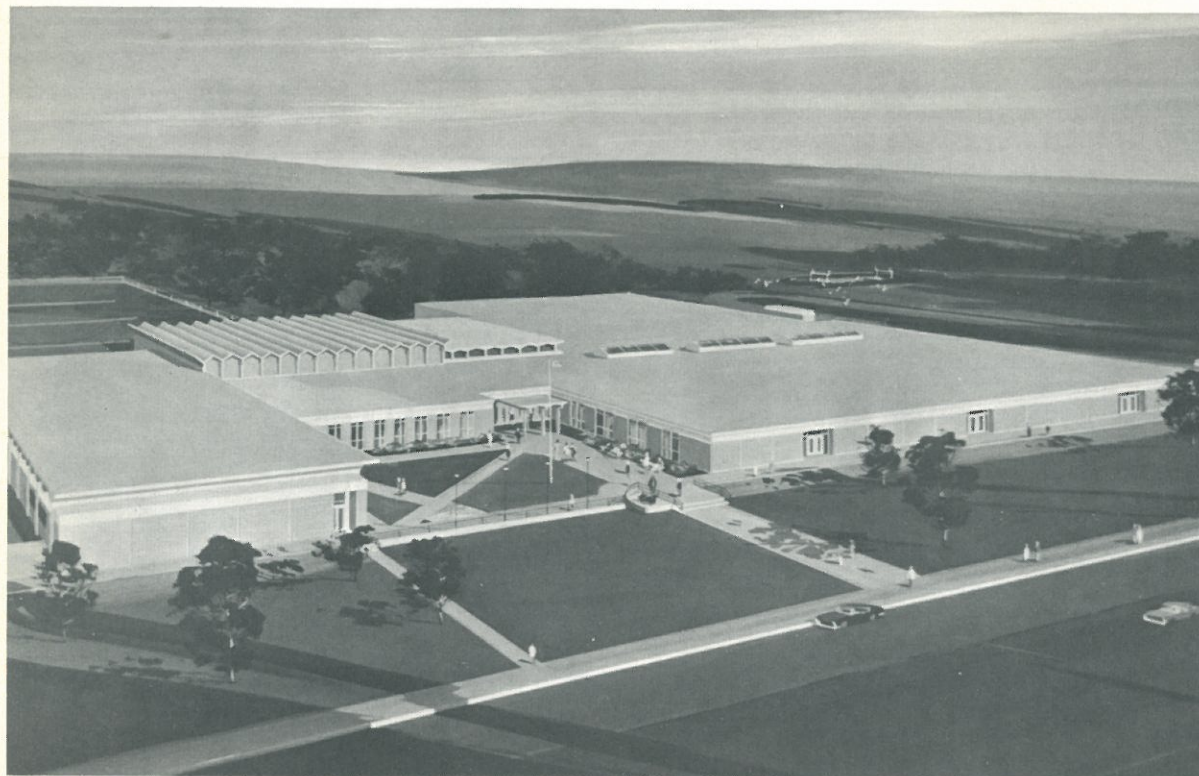

You must admit this is different!

So thrilling, simply chilling. . .

Congratulations to the 1966 Red Deer  
Junior College Class. Best wishes for your  
success in further fields of education.

PONOKA COMPOSITE HIGH SCHOOL

Best Wishes, R.D.J.C.
