

Legacy '79

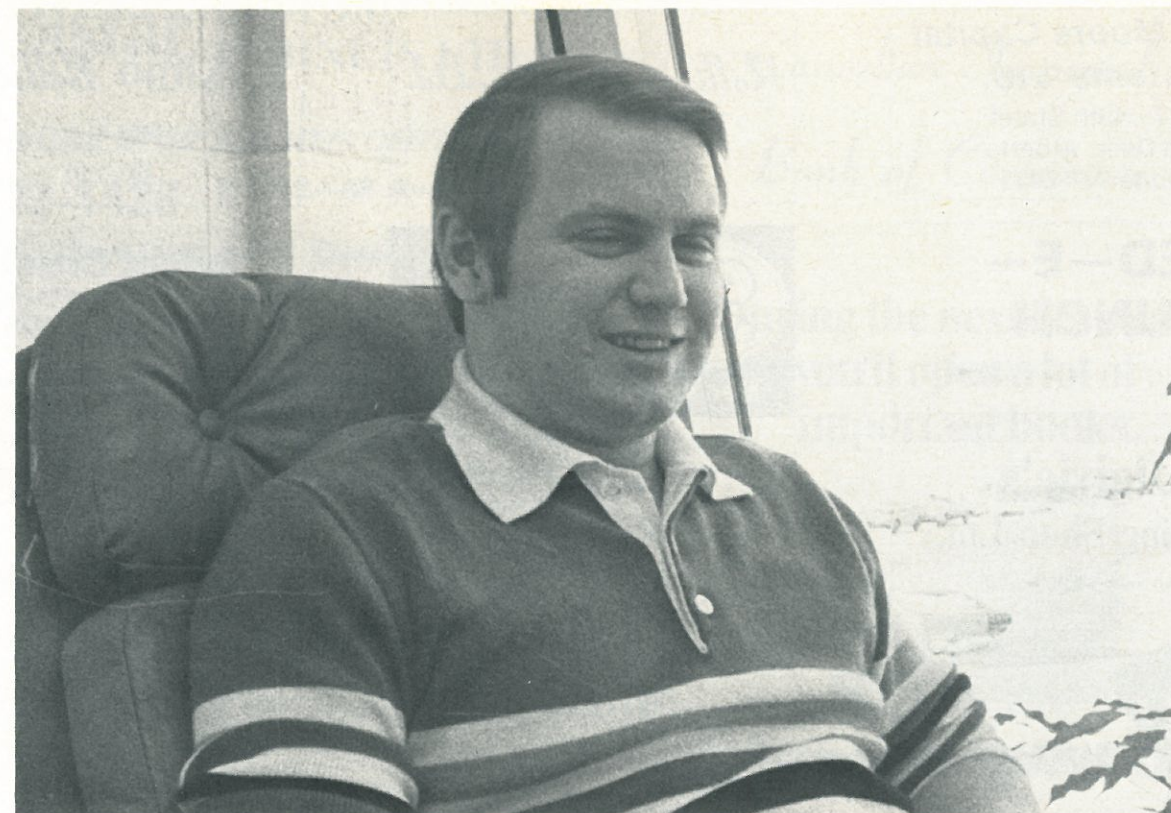

Red Deer
College

DR. W.G. FORBES

PRESIDENT'S MESSAGE

For the first year, the Students' Association planned for it. For the subsequent six years, the students dreamt about the plan. Then came two years during which a new plan evolved and a practical basis for funding it developed. But it is the Class of '79 that obtained the mortgage and saw your new Students' Association building through to completion! My sincere congratulations to all of you on this achievement. Certainly, there are few Colleges in Canada that have seen this level of commitment and success. Your facility will go a long way towards enhancing student participation and increasing the opportunities for students to gain personal insights and skills beyond those that alone stem from formal education.

PHILLIP STEPHAN

STUDENTS' ASSOCIATION PRESIDENT'S MESSAGE

We have just completed another year at Red Deer College, a year in which we have seen numerous changes taking place in and around this institution. For example, construction has been completed on the new Students' Association Building; this project has been accomplished through the diligent efforts of student councils and executive members over the past four years. Similarly, the two new academic wings will be completed and coming into use in the fall of 1979. Projects such as these are examples of what individuals or groups of individuals can accomplish through the setting of realistic and attainable goals.

I am sure that at this time many of us are contemplating and setting goals for the future. For some, the immediate goal may be to continue in College or University in an attempt to obtain a diploma or a degree; for others, this goal may include seeking and securing suitable employment which will allow them to use the abilities and talents which they have developed while attending Red Deer College. Whatever the case may be, I hope that you will take the opportunity to pause and reflect upon the accomplishments of the past year, and in doing so will evaluate and determine the course which you must follow to accomplish your future goals.

I have found great personal satisfaction in working within the Students' Association these past two years, and I would at this time like to give thanks to all those individuals who devoted their time and energy toward all aspects of student life and activities. Likewise, I hope that each of you will have found in your College experience some fond memories to carry with you throughout the years. To all of you, good luck and may you realize success in your future endeavors.
